This study was requested by the American Association of State Highway and Transportation Officials (AASHTO), and conducted as part of the National Cooperative Highway Research Program (NCHRP) Project 25-25/Task 19. The NCHRP is supported by annual voluntary contributions from the state Departments of Transportation. Project 25-25 is intended to fund quick response studies on behalf of the AASHTO Standing Committee on the Environment. The report was prepared by Lichtenstein Consulting Engineers, Inc. in association with Parsons Brinckerhoff Quade & Douglas, Inc. Mary E. McCahon of Lichtenstein was principal investigator for this project and led the preparation of the report. The other authors and investigators were Joseph J. Pullaro, P.E., Steven A. Shaup, P.E. and senior historian J. Patrick Harshbarger, all of Lichtenstein. Eric DeLony provided review comments.

The work was guided by a task group chaired by Tim Hill which included Brent Bowen, Janet D'Ignazio, Susan Gasbarro, Paul Graham, William Hauser, Mary Ann Naber, Nancy Schamu, and Madeleine White. The project was managed by Christopher Hedges, NCHRP Senior Program Officer. The preparers would like to thank Ken Kobetsky and Kelley Rehm of AASHTO for their technical assistance and Lisa Zeimer of Parsons Brinckerhoff for administrative assistance during the project.
