## **Report on Controlled Low-Strength Materials**

Copyright by the American Concrete Institute, Farmington Hills, MI. All rights reserved. This material may not be reproduced or copied, in whole or part, in any printed, mechanical, electronic, film, or other distribution and storage media, without the written consent of ACI.

The technical committees responsible for ACI committee reports and standards strive to avoid ambiguities, omissions, and errors in these documents. In spite of these efforts, the users of ACI documents occasionally find information or requirements that may be subject to more than one interpretation or may be incomplete or incorrect. Users who have suggestions for the improvement of ACI documents are requested to contact ACI via the errata website at [www.concrete.org/committees/errata.asp](http://www.concrete.org/committees/errata.asp). Proper use of this document includes periodically checking for errata for the most up-to-date revisions.

ACI committee documents are intended for the use of individuals who are competent to evaluate the significance and limitations of its content and recommendations and who will accept responsibility for the application of the material it contains. Individuals who use this publication in any way assume all risk and accept total responsibility for the application and use of this information.

All information in this publication is provided “as is” without warranty of any kind, either express or implied, including but not limited to, the implied warranties of merchantability, fitness for a particular purpose or non-infringement.

ACI and its members disclaim liability for damages of any kind, including any special, indirect, incidental, or consequential damages, including without limitation, lost revenues or lost profits, which may result from the use of this publication.

It is the responsibility of the user of this document to establish health and safety practices appropriate to the specific circumstances involved with its use. ACI does not make any representations with regard to health and safety issues and the use of this document. The user must determine the applicability of all regulatory limitations before applying the document and must comply with all applicable laws and regulations, including but not limited to, United States Occupational Safety and Health Administration (OSHA) health and safety standards.

Participation by governmental representatives in the work of the American Concrete Institute and in the development of Institute standards does not constitute governmental endorsement of ACI or the standards that it develops.

Order information: ACI documents are available in print, by download, on CD-ROM, through electronic subscription, or reprint and may be obtained by contacting ACI.

Most ACI standards and committee reports are gathered together in the annually revised *ACI Manual of Concrete Practice* (MCP).

**Keywords:** aggregates; backfill; compacted fill; controlled density fill; controlled low-strength material; flowable fill; flowable mortar; fly ash; foundation stabilization; low-density material; pipe bedding; plastic soil-cement; preformed foam; soil-cement slurry; trench backfill; unshrinkable fill; void filling.

## CONTENTS

### CHAPTER 1—INTRODUCTION, p. 2

### CHAPTER 2—NOTATION AND DEFINITIONS, p. 2

- 2.1—Notation, p. 2
- 2.2—Definitions, p. 2

### CHAPTER 3—APPLICATIONS, p. 2

- 3.1—General, p. 2
- 3.2—Backfills, p. 2
- 3.3—Structural fills, p. 3
- 3.4—Insulating and isolation fills, p. 4
- 3.5—Thermal-insulation-conductivity fills, p. 4
- 3.6—Pavement bases, p. 4
- 3.7—Conduit bedding, p. 4
- 3.8—Erosion control, p. 5
- 3.9—Void filling, p. 5

ACI Committee Reports, Guides, and Commentaries are intended for guidance in planning, designing, executing, and inspecting construction. This document is intended for the use of individuals who are competent to evaluate the significance and limitations of its content and recommendations and who will accept responsibility for the application of the material it contains. The American Concrete Institute disclaims any and all responsibility for the stated principles. The Institute shall not be liable for any loss or damage arising therefrom.

Reference to this document shall not be made in contract documents. If items found in this document are desired by the Architect/Engineer to be a part of the contract documents, they shall be restated in mandatory language for incorporation by the Architect/Engineer.

### 3.10—Nuclear facilities, p. 5

### 3.11—Bridge reclamation, p. 6

### CHAPTER 4—MATERIALS, p. 6

- 4.1—General, p. 6
- 4.2—Portland cement, p. 6
- 4.3—Fly ash, p. 6
- 4.4—Admixtures, p. 6
- 4.5—Mineral admixtures and other additives, p. 6
- 4.6—Water, p. 6
- 4.7—Aggregates, p. 6
- 4.8—Nonstandard materials, p. 7
- 4.9—Ponded ash or basin ash, p. 7

### CHAPTER 5—PROPERTIES, p. 7

- 5.1—Introduction, p. 7
- 5.2—Plastic properties, p. 7
- 5.3—In-service properties, p. 9

### CHAPTER 6—PROPORTIONING, p. 11

- 6.1—Introduction, p. 11
- 6.2—Materials, p. 11
- 6.3—General formulation, p. 11
- 6.4—Proportioning methods, p. 11
- 6.5—Evaluation, p. 12
- 6.6—Adjustments to proportioning, p. 12

### CHAPTER 7—MIXING, TRANSPORTING, AND PLACING, p. 12

- 7.1—General, p. 12

ACI 229R-13 supersedes ACI 229R-99 and was adopted and published June 2013..
