

Australian Standard[®]

**Cold mix asphalt for maintenance
patching**

This Australian Standard was prepared by Committee CE/6, Asphalt and Sprayed Surfacing. It was approved on behalf of the Council of Standards Australia on 27 January 1955 and published on 5 May 1995.

The following interests are represented on Committee CE/6:

Association of Consulting Engineers, Australia

Australian Asphalt Pavement Association

Australian Chamber of Commerce and Industry

Australian Institute of Petroleum

Australian Road Research Board

AUSTROADS

Department of Administrative Services,

Australian Construction Services

The Works Consultancy Services, New Zealand

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 84053.
