

Manual of uniform traffic control devices

Part 14: Traffic signals

This Australian Standard® was prepared by Committee MS-012, Road Signs and Traffic Signals. It was approved on behalf of the Council of Standards Australia on 2 July 2014. This Standard was published on 19 August 2014.

The following are represented on Committee MS-012:

- ARRB Group
 - Association of Consultants in Access Australia
 - Australasian Railway Association
 - Australian Automobile Association
 - Australian Chamber of Commerce and Industry
 - Australian Industry Group
 - Australian Motorcycle Council
 - Austroads (Representative from Department of Planning, Transport and Infrastructure, SA)
 - Department of Lands and Planning, NT
 - Department of Territory and Municipal Services, Australian Capital Territory
 - Department of Transport and Main Roads, Qld
 - Institute of Public Works Engineering Australia
 - Main Roads Western Australia
 - Roadmarking Industry Association of Australia
 - Roads and Maritime Services NSW
 - VicRoads
-

This Standard was issued in draft form for comment as DR AS 1742.14.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting **www.standards.org.au**

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at **mail@standards.org.au**, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.

PREFACE

This Standard was prepared by the Standards Australia Committee MS-012, Road Signs and Traffic Signals, to supersede AS 1742.14—1996. It is one in a series of fourteen Standards which together form the *Manual of uniform traffic control devices*.

This Standard incorporates Amendment No. 1 (September 2019). The changes required by the Amendment are indicated in the text by a marginal bar and amendment number against the clause, note, table, figure or part thereof affected.

The AS 1742 series comprises the following Standards.

AS

1742	Manual of uniform traffic control devices
1742.1	Part 1: General introduction and index of signs
1742.2	Part 2: Traffic control devices for general use
1742.3	Part 3: Traffic control for works on roads
1742.4	Part 4: Speed controls
1742.5	Part 5: Street name and community facility name signs
1742.6	Part 6: Tourist and services signs
1742.7	Part 7: Railway crossings
1742.9	Part 9: Bicycle facilities
1742.10	Part 10: Pedestrian control and protection
1742.11	Part 11: Parking controls
1742.12	Part 12: Bus, transit, tram and truck lanes
1742.13	Part 13: Local area traffic management
1742.14	Part 14: Traffic signals (this Standard)
1742.15	Part 15: Direction signs, information signs and route numbering

The objectives of the revision are:

- (a) To remove many detailed guidelines relating to the operation of traffic signals and referring to Austroads.
- (b) To remove references to signals adjacent to railway level crossings, as this is contained in AS 1742.7.
- (c) To include pedestrian countdown timer.
- (d) To provide more details regarding lane use control sign for freeway management.
- (e) To provide more guidance regarding LED signs.
- (f) To harmonize standards in signs and line marking at signalized intersections.

The relationship between Australian Standards and publications produced by Austroads should be noted. The former provides specifications and procedures that ensure that products and services are safe and reliable, and consistently perform the way they are intended. Austroads provides guidance documents that deal with the design, construction maintenance and operation of the road network. Austroads documents are also used by road authorities in New Zealand.

In cases of similar subject matter, this is dealt with across both sets of documents. Where this occurs, each document aims to provide information that is consistent, complimentary and supportive of the other.

The term ‘informative’ has been used in this Standard to define the application of the appendix to which it applies. An ‘informative’ appendix is only for information and guidance.

CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE.....	5
1.2 REFERENCED DOCUMENTS.....	5
1.3 DEFINITIONS.....	5
SECTION 2 DESCRIPTION OF SIGNAL DISPLAYS	
2.1 GENERAL.....	7
2.2 STEADY DISPLAYS FOR VEHICLES.....	7
2.3 FLASHING DISPLAYS	8
2.4 PEDESTRIAN DISPLAYS	9
2.5 BICYCLE DISPLAYS.....	9
2.6 PUBLIC TRANSPORT AND EMERGENCY VEHICLE DISPLAYS.....	9
SECTION 3 ARRANGEMENT OF SIGNAL ASPECTS	
3.1 GENERAL PRINCIPLES.....	11
3.2 SIGNAL FACE LAYOUTS AT INTERSECTIONS	12
3.3 SIGNAL FACE LAYOUTS FOR PUBLIC TRANSPORT AND EMERGENCY VEHICLE CONTROL.....	12
3.4 SIGNAL FACE LAYOUTS FOR OVERHEAD LANE CONTROL DEVICES.....	12
3.5 SIGN ALTERNATIVES FOR NON-CHANGING ASPECTS	18
3.6 SIGNAL FACE LAYOUTS FOR PEDESTRIAN AND BICYCLE CONTROL	18
3.7 TWO-ASPECT SIGNAL FACES.....	20
3.8 SEQUENCE OF SIGNAL DISPLAYS.....	20
SECTION 4 LOCATION OF SIGNAL FACES	
4.1 GENERAL.....	21
4.2 SIGNAL FACE LOCATIONS AT INTERSECTIONS.....	22
4.3 SIGNAL FACE LOCATIONS AT MID-BLOCK PEDESTRIAN CROSSINGS.....	23
SECTION 5 DESIGN AND INSTALLATION OF SIGNAL EQUIPMENT	
5.1 DESIGN AND SIZE OF ASPECT.....	24
5.2 LANTERN MOUNTING HEIGHT	24
5.3 TARGET BOARDS.....	24
5.4 AIMING AND SHIELDING OF LANTERNS	24
5.5 VISORS AND LOUVRES.....	24
5.6 PEDESTRIAN PUSH BUTTONS	25
5.7 CYCLIST PUSH BUTTONS.....	26
SECTION 6 SIGNS, PAVEMENT MARKINGS AND GEOMETRIC REQUIREMENTS	
6.1 SIGNS	27
6.2 PAVEMENT MARKINGS	29
6.3 SIGHT DISTANCE TO SIGNALS.....	30
SECTION 7 SPECIAL SITUATIONS	
7.1 SIGNALS FOR EMERGENCY SERVICE FACILITIES.....	32
7.2 ADVANCE WARNING TRAFFIC SIGNAL SIGN ASSEMBLIES	33
7.3 RAMP METERING SIGNALS	34
7.4 ROUNDABOUT METERING SIGNALS	34
7.5 LEFT TURN ON RED AFTER STOPPING.....	34
