

Australian Standard[®]

**Specification and methods of
test for packaged concrete mixes**

This Australian Standard was prepared by Committee BD/49, Manufacture of Concrete. It was approved on behalf of the Council of Standards Australia on 18 June 1993 and published on 13 September 1993.

The following interests are represented on Committee BD/49:

Australasian Slag Association

AUSTROADS

Cement and Concrete Association of Australia

Department of Administrative Services — Australian Construction Services

Housing Industry Association

Master Builders Construction and Housing Association Australia

Metal Trades Industry Association of Australia

National Ready Mixed Concrete Association

Public Works Department, N.S.W.

Royal Australian Institute of Architects

The Association of Consulting Engineers Australia

University of New South Wales

University of Sydney

Additional interests participating in preparation of Standard:

Australian Cement Manufacturers

Bemac Laboratories

Hardware Retailers Association of N.S.W.

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 92032.
