

Australian Standard™

Radar speed detection

Part 2: Operational procedures

This Australian Standard was prepared by Committee CS-068, Radar Speed Detection. It was approved on behalf of the Council of Standards Australia on 11 July 2003 and published on 11 August 2003.

The following are represented on Committee CS-068:

Australian Automobile Association
Australian Chamber of Commerce and Industry
Institution of Engineers, Australia
National Standards Commission
New South Wales Police Service
Queensland Police Service
South Australia Police
Tasmania Police
Victoria Police
Western Australia Police

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Australia web site at www.standards.com.au and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Global Standard*, has a full listing of revisions and amendments published each month.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.com.au, or write to the Chief Executive, Standards Australia International Ltd, GPO Box 5420, Sydney, NSW 2001.

This Standard was issued in draft form for comment as DR 02498.

Australian Standard™

Radar speed detection

Part 2: Operational procedures

Originated as AS 2898.2—1986.
Previous edition 1992.
Third edition 2003.
