

Australian/New Zealand Standard™

**Supplementary cementitious materials
for use with portland and blended
cement**

Part 3: Amorphous silica

AS/NZS 3582.3:2002

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee BD-031, Supplementary Cementitious Materials for Use with Portland and Blended Cement. It was approved on behalf of the Council of Standards Australia on 16 November 2002 and on behalf of the Council of Standards New Zealand on 12 November 2002. It was published on 17 December 2002.

The following are represented on Committee BD-031:

Austroroads
Ash Development Association of Australia
Australasian Slag Association
Australian Pre-Mixed Concrete Association
Building Research Association of New Zealand
Bureau of Steel Manufacturers of Australia
CSIRO Manufacturing and Infrastructure Technology
Cement and Concrete Association of Australia
Cement and Concrete Association of New Zealand
Concrete Institute of Australia
Pacific Power

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at www.standards.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 00072.

Australian/New Zealand Standard™

Supplementary cementitious materials for use with portland and blended cement

Part 3: Amorphous silica

Originated as AS 3582.3—1994.
Jointly revised and designated AS/NZS 3582.3:2002.
