

Australian Standard[®]

**Supplementary cementitious
materials for use with portland and
blended cement**

Part 1: Fly ash

This Australian Standard was prepared by Committee BD/31, Supplementary Cementitious Materials for Use with Portland and Blended Cement. It was approved on behalf of the Council of Standards Australia on 14 November 1997 and published on 5 January 1998.

The following interests are represented on Committee BD/31:

Ash Development Association of Australia
The Association of Consulting Engineers Australia
Australasian Slag Association
Australian Pre-Mixed Concrete Association
AUSTROADS
Bureau of Steel Manufacturers of Australia
Cement and Concrete Association of Australia
Concrete Institute of Australia
CSIRO, Division of Building, Construction and Engineering
Department of Public Works and Services, N.S.W.
Pacific Power

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 97102.
