

Australian Standard<sup>®</sup>

---

**Retroreflective materials and  
devices for road traffic control  
purposes**

**Part 3: Raised pavement markers  
(retroreflective and  
non-retroreflective)**

---

This Australian Standard was prepared by Committee MS/49, Retroreflective Devices. It was approved on behalf of the Council of Standards Australia on 27 March 1992 and published on 15 June 1992.

---

The following interests are represented on Committee MS/49:

Australian Federation of Construction Contractors  
Australian Road Federation  
Australian Road Research Board  
Austroads  
Confederation of Australian Industry  
Metal Trades Industry Association of Australia  
Railways of Australia Committee

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

---

*This Standard was issued in draft form for comment as DR 91141.*
