Preface

Geotechnical Frontiers 2017 was held in Orlando, FL, on March 12-15. It is the third conference co-sponsored by the Industrial Fabrics Association International (IFAI) and the American Society of Civil Engineers' Geo-Institute (G-I). Other supporting organizations are acknowledged below.

The conference includes topics which illustrate that our understanding of traditional subjects, such as the physical properties of soils, the stability of slopes, the details of mechanically-stabilized earth, the design of roadways and the efficacies of geosynthetics remains far from complete. It also includes topics that reflect the dynamic and evolving nature of our industry, such as thermal properties of soils, energy geostructures, coastal engineering and measures to process coal combustion residuals.

The conference was organized with eight concurrent technical sessions over a period of three days. Most sessions are 90-minutes-long, and ideally, contain five to six presentations. These constraints limited the total number of slots that are available for paper presentations, and consequently, the total number of papers that can be included in the proceedings. This is because, according to the conference rules, a paper must be presented in order to be published in the proceedings.

We received 893 abstracts for the conference. Each abstract was reviewed by the two technical session co-chairs and by at least one of the conference technical co-chairs. Of the 689 abstracts that were accepted, 583 resulted in draft manuscript submittals. Each manuscript received at least two reviews. At the end of this process, 361 manuscripts were recommended for publication in the six volumes of these proceedings. Unfortunately, the limited number of presentation slots made it necessary to decline many fine papers. We encourage the authors to submit at other venues.

Geotechnical Frontiers is also the venue for special presentations of invited and award lectures. Prof. Kerry Rowe presented the Terzaghi Lecture, Prof. Vaughan Griffiths presented the Seed Lecture, and Prof. Ning Lu presented the Peck Lecture. The inaugural Robert. M. Koerner Award and Lecture debuted at this conference and George Koerner was the speaker. There was also a special honorary symposium in recognition of the distinguished career and countless contributions of Professor Mike Duncan.

Thomas L. Brandon and Richard J. Valentine, Editors
Barbara J. Connett, Secretary General

Conference Organizing Committee

The conference organizing committee started planning in March, 2015. The individuals listed below have been actively involved in the planning and production of the conference.

Program Committee Co-Chairs

Elizabeth Dwyre, PE, DGE, Parsons Brinckerhoff, Inc.
Jorge Zornberg, PhD, PE, University of Texas at Austin

Secretary General / Event Manager

Barbara Connett, IFAI

Technical Program Co-Chairs

Thomas L. Brandon, PhD, PE, Virginia Tech
Richard J. Valentine, PE, Valentine Engineering Associates, Inc.

Conference Advisors

Jie Han, PhD, PE, University of Kansas
Robert Mackey, PE, S2L, Inc.

Exhibit Chair

Jennifer McKay, TenCate Geosynthetics

Short Course Chair

L. David Suits, North American Geosynthetics Society

Student Activities Chair

Aaron Budge, PhD, PE, GE, Minnesota State University

Student Programs Project Manager

Ashleigh Esselman, IFAI

Geo- Institute

Brad Keelor
Helen Cook

Additional Organizational Assistance

Many professional organizations contributed to the many components necessary to hold a conference like Geotechnical Frontiers 2017. These are listed below.

Supporting Organizations

Academy of Geo-Professionals (AGP)
International Association of Foundation Drilling (ADSC)
Association of Environmental and Engineering Geologists (AEG)

Association for Metallically Stabilized Earth (AMSE)
 American Society of Civil Engineers – FL Section East Central Branch Geo-Institute (ASCE FL)
 ASTM International (ASTM)
 Bombay Textile Research Association (BTRA)
 Business Co-ordination House (BCH)
 Canadian Geotechnical Society (CGS)
 Deep Foundations Institute (DFI)
 Erosion Control Technology Council (ECTC)
 Fabricated Geomembrane Institute (FGI)
 Federal Highway Administration (FHWA)
 GeoProfessional Business Association (GBA)
 Geosynthetic Institute (GSI)
 International Association of Geosynthetic Installers (IAGI)
 The Nonwovens Institute (NWI)
 Pile Driving Contractors Association (PDCA)
 Transportation Research Board (TRB)
 United States Universities Council on Geotechnical Education and Research (USUCGER)

Supported by

North American chapter of the International Geosynthetics Society (IGS-NA)

Under the Auspices of

International Geosynthetics Society (IGS)

Supporting Media

GeoChannel
 geoengineer.org
GEOSTRATA magazine
Geosynthetics magazine
Pile Buck magazine
 TechTex India

Session Co-Chairs and Paper Reviewers

Papers were reviewed by the technical session co-chairs and by a generous donation of time from volunteer reviewers. These individuals are listed below:

Technical Session Co-Chairs

Aaron Budge	Angel Palomino	Beena Ajmera
Aaron Goldberg	Anne Lemnitzer	Ben Leshchinsky
Adrian Rodriguez-Marek	Antonio Carraro	Bernardo Castellanos
Alec Marshall	Arvin Farid	Binod Tiwari
Alejandro Martinez	Ashley MacMillan	BooHyun Nam
Allen Cadden	Ashly Cabas-Mijares	Bora Cetin
Amr Morsy	Assaf Klar	Burak Tanyu

Charles Schwartz
 Cheng Lin
 Chris Richgels
 Chris Woods
 Christopher Meehan
 Corrie Walton-Macaulay
 Craig Benson
 Daniel VandenBerge
 David Frost
 Don Hullings
 Elizabeth Dwyer
 Eric Blond
 Fayun Liang
 Fei Wang
 Guney Olgun
 Ingrid Tomac
 Jack Montgomery

James McKelvey
 Jason Hertz
 Jie Huang
 John McCartney
 Jose Clemente
 Joseph Scalia
 Katerina Ziotopoulou
 Krishna Reddy
 Kristi Bumpas
 Kristin Sample-Lord
 Liu Huabei
 Mahmoud Enad

Contents

Application of Geofibers

Use of Microgrid Inclusions to Reinforce Sand	1
Jordan Vesper, Robin Wortman, Ben Leshchinsky, and T. Matthew Evans	
Study of a Discrete Randomly Distributed Fiber on the Tensile Strength Improvement of Microbial-Induced Soil Stabilization	12
Lin Li, Mingdong Li, Ubani Ogbonnaya, Kejun Wen, Yingzi Xu, and Farshad Amini	
The Effect of Fiber Type and Size on the Strength and Ductility of Fly Ash and Fiber Stabilized Fine-Grained Soil Subbase	19
Sazzad Bin-Shafique, Sanjoy Das Gupta, Jie Huang, and Sepehr Rezaeimalek	
Optimizing Fiber Parameters Coupled with Chemical Treatment: PROMETHEE Approach	30
Arif Ali Baig Moghal, Ateekh Ur Rehman, and Bhaskar Chittoori	
Reliability-Based Design Application for Fiber-Reinforced Clay	42
Assile Abou Diab, Shadi Najjar, and Salah Sadek	

Behavior of Compacted Clays

Practical Considerations for Measuring the Shear Strength of Compacted Clay	53
Daniel R. VandenBerge, J. Michael Duncan, and Thomas L. Brandon	
Post-Construction Deformation of Compacted Fills Caused by Wetting.....	64
Timothy D. Stark and Stephen T. Wilk	
Tensile Strength of Compacted Clay between Residual Saturation and Air Entry.....	72
Idil Deniz Akin and William J. Likos	
Shear Strength of Remolded and Compacted Beaumont Clay	82
Mark J. Thompson and Daniel R. VandenBerge	
The Use of Thermogravimetry in Quantifying the Hydration Products in Cement-Stabilized Kaolinite	92
Wassim E. Tabet, Amy B. Cerato, and Rolf Jentoft
