Dedication

Neal FitzSimons 1928 – 2000

Neal FitzSimons (at Benjamin Wright's dedication ceremony, October 1970) Source: The L. Neal FitzSimons Collection, in possession of the author.

Neal was a devoted advocate for the American Society of Civil Engineers and a tireless proponent for the history of the profession. His was a prolific writer of both technical papers and history articles, as well as the recipient of numerous awards, and I considered him a mentor, close business associate, and friend. He always felt a biography of Benjamin Wright was an important undertaking for both ASCE and the profession in general. My desire is for this work to serve, in some small way, as a tribute to his memory. This page intentionally left blank
