Preface

Geotechnical Frontiers 2017 was held in Orlando, FL, on March 12-15. It is the third conference co-sponsored by the Industrial Fabrics Association International (IFAI) and the American Society of Civil Engineers' Geo-Institute (G-I). Other supporting organizations are acknowledged below.

The conference includes topics which illustrate that our understanding of traditional subjects, such as the physical properties of soils, the stability of slopes, the details of mechanically-stabilized earth, the design of roadways and the efficacies of geosynthetics remains far from complete. It also includes topics that reflect the dynamic and evolving nature of our industry, such as thermal properties of soils, energy geostructures, coastal engineering and measures to process coal combustion residuals.

The conference was organized with eight concurrent technical sessions over a period of three days. Most sessions are 90-minutes-long, and ideally, contain five to six presentations. These constraints limited the total number of slots that are available for paper presentations, and consequently, the total number of papers that can included in the proceedings. This is because, according to the conference rules, a paper must be presented in order to be published in the proceedings.

We received 893 abstracts for the conference. Each abstract was reviewed by the two technical session co-chairs and by at least one of the conference technical co-chairs. Of the 689 abstracts that were accepted, 583 resulted in draft manuscript submittals. Each manuscript received at least two reviews. At the end of this process, 361 manuscripts were recommended for publication in the six volumes of these proceedings. Unfortunately, the limited number of presentation slots made it necessary to decline many fine papers. We encourage the authors to submit at other venues.

Geotechnical Frontiers is also the venue for special presentations of invited and award lectures. Prof. Kerry Rowe presented the Terzaghi Lecture, Prof. Vaughan Griffiths presented the Seed Lecture, and Prof. Ning Lu presented the Peck Lecture. The inaugural Robert. M. Koerner Award and Lecture debuted at this conference and George Koerner was the speaker. There was also a special honorary symposium in recognition of the distinguished career and countless contributions of Professor Mike Duncan.

Thomas L. Brandon and Richard J. Valentine, Editors
Barbara J. Connett, Secretary General

Conference Organizing Committee

The conference organizing committee started planning in March, 2015. The individuals listed below have been actively involved in the planning and production of the conference.

Program Committee Co-Chairs

Elizabeth Dwyre, PE, DGE, Parsons Brinckerhoff, Inc.
Jorge Zornberg, PhD, PE, University of Texas at Austin

Secretary General / Event Manager

Barbara Connett, IFAI

Technical Program Co-Chairs

Thomas L. Brandon, PhD, PE, Virginia Tech
Richard J. Valentine, PE, Valentine Engineering Associates, Inc.

Conference Advisors

Jie Han, PhD, PE, University of Kansas
Robert Mackey, PE, S2L, Inc.

Exhibit Chair

Jennifer McKay, TenCate Geosynthetics

Short Course Chair

L. David Suits, North American Geosynthetics Society

Student Activities Chair

Aaron Budge, PhD, PE, GE, Minnesota State University

Student Programs Project Manager

Ashleigh Esselman, IFAI

Geo- Institute

Brad Keelor
Helen Cook

Additional Organizational Assistance

Many professional organizations contributed to the many components necessary to hold a conference like Geotechnical Frontiers 2017. These are listed below.

Supporting Organizations

Academy of Geo-Professionals (AGP)
International Association of Foundation Drilling (ADSC)
Association of Environmental and Engineering Geologists (AEG)

Association for Metallically Stabilized Earth (AMSE)
 American Society of Civil Engineers – FL Section East Central Branch Geo-Institute (ASCE FL)
 ASTM International (ASTM)
 Bombay Textile Research Association (BTRA)
 Business Co-ordination House (BCH)
 Canadian Geotechnical Society (CGS)
 Deep Foundations Institute (DFI)
 Erosion Control Technology Council (ECTC)
 Fabricated Geomembrane Institute (FGI)
 Federal Highway Administration (FHWA)
 GeoProfessional Business Association (GBA)
 Geosynthetic Institute (GSI)
 International Association of Geosynthetic Installers (IAGI)
 The Nonwovens Institute (NWI)
 Pile Driving Contractors Association (PDCA)
 Transportation Research Board (TRB)
 United States Universities Council on Geotechnical Education and Research (USUCGER)

Supported by

North American chapter of the International Geosynthetics Society (IGS-NA)

Under the Auspices of

International Geosynthetics Society (IGS)

Supporting Media

GeoChannel
 geoengineer.org
GEOSTRATA magazine
Geosynthetics magazine
Pile Buck magazine
 TechTex India

Session Co-Chairs and Paper Reviewers

Papers were reviewed by the technical session co-chairs and by a generous donation of time from volunteer reviewers. These individuals are listed below:

Technical Session Co-Chairs

Aaron Budge	Angel Palomino	Beena Ajmera
Aaron Goldberg	Anne Lemnitzer	Ben Leshchinsky
Adrian Rodriguez-Marek	Antonio Carraro	Bernardo Castellanos
Alec Marshall	Arvin Farid	Binod Tiwari
Alejandro Martinez	Ashley MacMillan	BooHyun Nam
Allen Cadden	Ashly Cabas-Mijares	Bora Cetin
Amr Morsy	Assaf Klar	Burak Tanyu

Charles Schwartz
Cheng Lin
Chris Richgels
Chris Woods
Christopher Meehan
Corrie Walton-Macaulay
Craig Benson
Daniel VandenBerge
David Frost
Don Hullings
Elizabeth Dwyer
Eric Blond
Fayun Liang
Fei Wang
Guney Olgun
Ingrid Tomac
Jack Montgomery

James McKelvey
Jason Hertz
Jie Huang
John McCartney
Jose Clemente
Joseph Scalia
Katerina Ziotopoulou
