

# Hot applied joint sealants —

## Part 12: Test method for the manufacture of concrete test blocks for bond testing (recipe methods)

The European Standard EN 13880-12:2003 has the status of a  
British Standard

ICS 93.080.20

# National foreword

This British Standard is the official English language version of EN 13880-12:2003.

The UK participation in its preparation was entrusted by Technical Committee B/510, Road materials, to Subcommittee B/510/3, Materials for concrete roads, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

## Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

**Compliance with a British Standard does not of itself confer immunity from legal obligations.**

This British Standard, was published under the authority of the Standards Policy and Strategy Committee on 28 August 2003

## Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 8, an inside back cover and a back cover.

English version

Hot applied joint sealants - Part 12: Test method for the  
manufacture of concrete test blocks for bond testing (recipe  
methods)

Produits de scellement de joints appliqués à chaud - Partie  
12: Méthode d'essai pour la fabrication de blocs en béton  
pour l'essai d'adhérence (recette)

Heiß verarbeitbare Fugenmassen - Teil 12: Prüfverfahren  
zur Herstellung von Beton-Grundkörpern für die  
Bestimmung des Dehn- und Haftvermögens

This European Standard was approved by CEN on 2 May 2003.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.
