

# Sampling and examination of bituminous mixtures for roads and other paved areas —

**Part 101: Methods for preparatory  
treatment of samples for analysis**

ICS 75.140; 93.080.20

# Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee B/510, Road materials, to Subcommittee B/510/1, Coated macadam and hot asphalt, upon which the following bodies were represented:

- British Civil Engineering Manufacturers' Association
- County Surveyor's Society
- Department for Transport — Highways Agency
- Highways Agency — Safety Standards and Research
- Institute of Asphalt Technology
- Institution of Civil Engineers
- Institution of Highways and Transportation
- Mastic Asphalt Council Ltd.
- MoD — UK Defence Standardization
- Quarry Products Association
- Refined Bitumen Association
- Scottish Office — Roads directorate
- Society of Chemical Industry
- TRL — Transport Research Laboratory
- United Kingdom Accreditation Service
- Co-opted members

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 15 December 2004
