

Hygrothermal performance of buildings — Calculation and presentation of climatic data —

Part 1: Monthly means of single meteorological elements

The European Standard EN ISO 15927-1:2003 has the status of a
British Standard

ICS 91.120.10; 91.120.30

National foreword

This British Standard is the official English language version of EN ISO 15927-1:2003. It is identical with ISO 15927-1:2003.

The UK participation in its preparation was entrusted by Technical Committee B/540, Energy performance of materials, components and buildings, to Subcommittee B/540/1, European Standards for thermal insulations, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN ISO title page, pages 2 to 29 and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

Amendments issued since publication

English version

Hygrothermal performance of buildings - Calculation and presentation of climatic data - Part 1: Monthly means of single meteorological elements (ISO 15927-1:2003)

Performance hygrothermique des bâtiments - Calcul et présentation des données climatiques - Partie 1: Moyennes mensuelles et annuelles des éléments météorologiques simples (ISO 15927-1:2002)

Wärme- und feuchteschutztechnisches Verhalten von Gebäuden - Berechnung und Darstellung von Klimadaten - Teil 1: Monats- und Jahresmittelwerte einzelner meteorologischer Elemente (ISO 15927-1:2002)

This European Standard was approved by CEN on 10 April 2003.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.

Contents

	Page
Foreword.....	3
1 Scope	4
2 Normative references	4
3 Terms, definitions, symbols and units	4
3.1 Terms and definitions.....	4
3.2 Symbols and units	6
4 Periods over which parameters are calculated	7
5 Air temperature	8
5.1 Sources of data	8
5.2 Calculation of the monthly mean	8
5.3 Calculation of the standard deviation of daily means about the monthly mean.....	9
5.4 Calculation of the annual mean and standard deviation	10
5.5 Expression of results	10
6 Atmospheric humidity	11
6.1 Sources of data	11
6.2 Relationships between temperature and humidity parameters	11
6.3 Calculation of monthly mean.....	13
6.4 Expression of results	14
7 Wind speed and direction	16
7.1 Methods of measurement	16
7.2 Environmental influence on mean wind speed.....	16
7.3 Statistical elements	20
7.4 Expression of results	21
8 Precipitation	22
8.1 Sources of data	22
8.2 Calculation of monthly total.....	22
8.3 Expression of results	22
9 Solar radiation.....	22
9.1 Sources of data	22
9.2 Calculation of monthly total solar irradiation	23
9.3 Expression of results	24
9.4 Estimating irradiances that are not measured.....	24
10 Longwave radiation	24
10.1 General.....	24
10.2 Sources of data	24
10.3 Calculation of monthly total longwave irradiation from the atmosphere (sky).....	24
10.4 Expression of results	25
Annex A (informative) Methods for splitting global solar irradiance into the direct and diffuse parts	26
Annex B (informative) Methods for estimating the longwave atmospheric irradiances (longwave sky irradiances)and the sky temperature.....	27
Bibliography	29
