

BSI Standards Publication

Drain and sewer systems outside buildings - Pumping systems

Part 2: Positive pressure systems

National foreword

This British Standard is the UK implementation of EN 16932-2:2018. Together with BS EN 16932-1:2018 and BS EN 16932-3:2018, it supersedes BS EN 1091:1997 and BS EN 1671:1997, which are withdrawn.

The UK participation in its preparation was entrusted to Technical Committee B/505/22.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

English Version

Drain and sewer systems outside buildings - Pumping systems - Part 2: Positive pressure systems

Réseaux d'évacuation et d'assainissement
à l'extérieur des bâtiments - Systèmes de
pompage - Partie 2: Systèmes sous pression

Entwässerungssysteme außerhalb von Gebäuden -
Pumpsysteme - Teil 2: Druckentwässerungssysteme

This European Standard was approved by CEN on 22 January 2018.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

European foreword	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	5
4 Symbols and units	7
5 General	8
6 Planning of positive pressure systems	8
6.1 Type of pumping station	8
6.1.1 Introduction	8
6.1.2 Pumping stations with submersible pumps	9
6.1.3 Pumping stations with dry installed pumps	11
6.1.4 Other types of pumping stations	11
6.2 Selection of type of pumping station	12
6.3 Route and profile of rising mains	12
7 Hydraulic design of pumping systems	13
7.1 Introduction	13
7.2 Establish inflow rates	15
7.2.1 Foul wastewater pumping stations	15
7.2.2 Surface water pumping installations	15
7.2.3 Combined sewer pumping stations	15
7.3 Select desired pump flow rates	15
7.4 Dimensioning collection tank	15
7.5 Select rising main diameter	16
7.5.1 Pumping stations	16
7.5.2 Pressure sewer systems	17
7.6 Retention period	17
7.7 Calculation of system characteristics	17
7.7.1 System head calculation	17
7.7.2 Pressure sewer systems	20
7.8 Selection of pump units and duty points	20
7.9 Check pressure transients (waterhammer)	22
8 Detailed design of pumping stations	23
8.1 General	23
8.2 Layout	23
8.3 Collection tank	24
8.4 Pump units	25
8.4.1 Pumps	25
8.4.2 Air compressor units	25
8.5 Controls and electrical equipment and instrumentation	25
9 Septicity	26
9.1 General	26
9.2 Control of septicity	26
9.2.1 General	26
9.2.2 Limiting retention period	27
9.2.3 Air flushing	27
9.2.4 Chemical treatment	27
9.2.5 Hydrogen sulphide stripping	27
9.2.6 Dilution of the septic wastewater in fresh wastewater	28
10 Testing and verification	28
10.1 Pumping stations	28
10.2 Rising mains	28
