

Determination of the bond behaviour between reinforcing bars and autoclaved aerated concrete by the “push-out” test

The European Standard EN 989:1995 has the status of a
British Standard

ICS 91.080.40; 91.100.30

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee B/523, Prefabricated components of reinforced autoclaved aerated concrete and lightweight aggregate concrete with open structure, upon which the following bodies were represented:

- Aggregate Concrete Block Association
- Autoclaved Aerated Concrete Products Association
- British Masonry Society
- British Precast Concrete Federation Ltd.
- Department of the Environment (Building Research Establishment)
- Institution of Structural Engineers
- Local Authority Organizations

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 April 1996
