

Products and systems for the protection and repair of concrete structures — Test methods —

Part 2: Determination of the adhesion of injection products, with or without thermal cycling — Adhesion by tensile bond strength

The European Standard EN 12618-2:2004 has the status of a
British Standard

ICS 91.080.40

National foreword

This British Standard is the official English language version of EN 12618-2:2004.

The UK participation in its preparation was entrusted by Technical Committee B/517, Concrete, to Subcommittee B/517/8, Protection and Repair of Concrete Structures, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 12, an inside back cover and a back cover.

The BSI copyright notice displayed in this document indicates when the document was last issued.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 9 July 2005

Products and systems for the protection and repair of concrete
structures - Test methods - Part 2: Determination of the
adhesion of injection products, with or without thermal cycling
Adhesion by tensile bond strength

Produits et systèmes pour la protection et la réparation des
structures en béton - Méthodes d'essai - Partie 2:
Détermination de l'adhérence des produits d'injection,
après cycles thermiques ou non - Procédé d'adhérence par
traction

Produkte und Systeme für den Schutz und die
Instandsetzung von Betontragwerken - Prüfverfahren - Teil
2: Bestimmung der Haftzugfestigkeit von Rissfüllstoffen mit
oder ohne thermische Behandlung - Haftzugfestigkeit

This European Standard was approved by CEN on 27 February 2004.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
