Testing concrete in structures —

Part 3: Determination of pull-out force

The European Standard EN 12504-3:2005 has the status of a British Standard

 $ICS\ 91.100.30$

National foreword

This British Standard is the official English language version of EN 12504-3:2005. No British Standard is superseded. General guidance on non-destructive methods of test for hardened concrete, including the pull-out test, is given in BS 1881-201:1986.

The UK participation in its preparation was entrusted by Technical Committee B/517, Concrete, to Subcommittee B/517/1, Concrete production and testing, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

The UK National Annex NA attached to this Standard provides additional information on pull-out testing.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled "International Standards Correspondence Index", or by using the "Search" facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 March 2005

EUROPEAN STANDARD NORME EUROPÉENNE EUROPÄISCHE NORM

EN 12504-3

March 2005

ICS 91.100.30

English version

Testing concrete in structures - Part 3: Determination of pull-out force

Essais pour béton dans les structures - Partie 3: Détermination de la force d'arrachement Prüfung von Beton in Bauwerken - Teil 3: Bestimmung der Ausziehkraft

This European Standard was approved by CEN on 4 September 2003.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
