National foreword

This British Standard is the UK implementation of EN 13508-1:2012. It supersedes BS EN 13508-1:2003 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee B/505, Wastewater engineering.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Supersedes EN 13508-1:2003

English Version

**Investigation and assessment of drain and sewer systems
outside buildings - Part 1: General Requirements**

Investigation et évaluation des réseaux d'assainissement à
l'extérieur des bâtiments - Partie 1: Exigences générales

Untersuchung und Beurteilung von
Entwässerungssystemen außerhalb von Gebäuden - Teil 1:
Allgemeine Anforderungen

This European Standard was approved by CEN on 18 August 2012.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Foreword.....	4
Introduction	5
1 Scope	7
2 Normative references	7
3 Terms and definitions	7
4 General.....	7
5 Investigation.....	9
5.1 Introduction	9
5.2 Purpose of investigation	9
5.3 Determine the scope of the investigation	10
5.4 Review existing information	11
5.5 Update inventory as required	13
5.6 Hydraulic investigation	14
5.6.1 Introduction	14
5.6.2 Flow and water level measurement	14
5.6.3 Rainfall measurement	14
5.6.4 Hydraulic calculations.....	14
5.6.5 Other techniques	15
5.7 Environmental investigation.....	16
5.7.1 Introduction	16
5.7.2 Review of inputs quality.....	16
5.7.3 Wastewater quality measurement.....	16
5.7.4 Wastewater quality simulation modelling	17
5.7.5 Surface receiving water impact surveys	17
5.7.6 Surface receiving water modelling	17
5.7.7 Leaktightness testing.....	17
5.7.8 Groundwater quality investigations.....	17
5.7.9 Odour and noise surveys.....	18
5.8 Structural investigation.....	18
5.8.1 Introduction	18
5.8.2 Prepare inspection programme.....	18
5.8.3 Visual inspection	19
5.8.4 Other techniques	20
5.9 Operational investigation.....	21
5.9.1 Introduction	21
5.9.2 Review operational activities.....	22
5.9.3 Review events	22
5.9.4 Other investigations	22
6 Assessment.....	22
6.1 Introduction	22
6.2 Performance deficiencies	24
6.2.1 Introduction	24
6.2.2 Drains and sewers, gullies, manholes and inspection chambers	24
6.2.3 Combined sewer overflows and detention tanks	25
6.2.4 Pumping stations, rising mains and vacuum mains	25
6.2.5 Insufficient hydraulic capacity	26
6.3 Consequences of performance deficiencies	26
6.3.1 General.....	26
6.3.2 Subsidence.....	26
6.3.3 Flooding.....	26
