Contents

Foreword *iii*

1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	General design criteria	4
5	Materials	6
6	Design	10
7	Preparation and construction	14
8	Overlay design	14

Annexes

Annex A (informative)	Worked examples	15
Annex B (informative)	Identification of materials and CBR values using a simple field test	17
Bibliography		18

List of figures

Figure 1	Typical cross-section of a pavement	4
----------	-------------------------------------	----------

List of tables

Table 1	Site categories for typical applications	5
Table 2	Sett size categories	8
Table 3	Bedding and jointing mortar strength	9
Table 4	CBR values for different material	10
Table 5	Foundation thickness and sett type – Unbound surface course, non-rigid unbound base	11
Table 6	Foundation thickness and sett type – Unbound surface course, non-rigid bound base	11
Table 7	Foundation thickness and sett type – Bound surface course, rigid bound base	12
Table 8	Standard axles per commercial vehicle	13
Table B.1	Identification of materials and CBR values	17

Summary of pages

This document comprises a front cover, an inside front cover, pages i to iv, pages 1 to 18, an inside back cover and a back cover.
