

Plastics piping systems — Thermoplastics shafts or risers for inspection chambers and manholes — Determination of resistance against surface and traffic loading

The European Standard EN 14802:2005 has the status of a
British Standard

ICS 93.025; 93.030

National foreword

This British Standard is the official English language version of EN 14802:2005.

The UK participation in its preparation was entrusted by Technical Committee PRI/88, Plastics piping systems, to Subcommittee PRI/88/1, Plastics piping for non-pressure applications, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 10, an inside back cover and a back cover.

English Version

**Plastics piping systems - Thermoplastics shafts or risers for
inspection chambers and manholes - Determination of
resistance against surface and traffic loading**

Systèmes de canalisations en plastique - Eléments de
rehausse en thermoplastiques pour boîtes d'inspection et
de branchement ou regards - Détermination de la
résistance aux charges de remblai et de circulation

Kunststoff-Rohrleitungssysteme - Kontrollschächte
(Inspektionsöffnungen) und Einsteigschächte aus
Thermoplasten - Bestimmung der Widerstandsfähigkeit
gegen Belastungen der Oberfläche und Verkehrslasten

This European Standard was approved by CEN on 4 November 2005.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
