

# Petroleum and natural gas industries — Cements and materials for well cementing —

## Part 5: Determination of shrinkage and expansion of well cement formulations at atmospheric pressure

The European Standard EN ISO 10426-5:2005 has the status of a  
British Standard

ICS 91.100.10; 75.020

# National foreword

This British Standard is the official English language version of EN ISO 10426-5:2005. It is identical with ISO 10426-5:2004.

The UK participation in its preparation was entrusted by Technical Committee PSE/17, Materials and equipment for petroleum, petrochemical and natural gas industries, to Subcommittee PSE/17/-/3, Drilling and completion fluids and well cements, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

## Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

**Compliance with a British Standard does not of itself confer immunity from legal obligations.**

## Summary of pages

This document comprises a front cover, an inside front cover, the EN ISO title page, the EN ISO foreword page, the ISO title page, pages ii to v, a blank page, pages 1 to 13 and a back cover.

Petroleum and natural gas industries - Cements and materials  
for well cementing - Part 5: Determination of shrinkage and  
expansion of well cement formulations at atmospheric pressure  
(ISO 10426-5:2004)

Industries du pétrole et du gaz naturel - Ciments et  
matériaux pour la cimentation des puits - Partie 5:  
Détermination du retrait et de l'expansion à la pression  
atmosphérique des formulations de ciments pour puits (ISO  
10426-5:2004)

Erdöl- und Erdgasindustrie - Zemente und Materialien für  
die Zementation von Tiefbohrungen - Teil 5: Bestimmung  
der Schrumpfung und Quellung von Bohrloch-  
Zementmischungen bei atmosphärischem Druck (ISO  
10426-5:2004)

This European Standard was approved by CEN on 30 September 2005.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
