

Methods of test for mortar for masonry —

Part 9: Determination of workable life and correction time of fresh mortar

The European Standard EN 1015-9:1999, incorporating amendment A1:2006, has the status of a British Standard

ICS 91.100.10

National foreword

This British Standard was published by BSI. It is the UK implementation of EN 1015-9:1999, incorporating amendment A1:2006. It is included in a package of standards relating to masonry mortar and rendering and plastering mortar which supersedes the following British Standards which are withdrawn.

BS 4551-1:1998, *Methods of testing mortars, screeds and plasters — Part 1: Physical testing*;

BS 4721:1981, *Specification for ready-mixed building mortars*;

BS 5838-2:1980, *Specification for dry packaged cementitious mixes — Part 2: Prepacked mortar mixes*.

The start and finish of text introduced or altered by amendment is indicated in the text by tags **A1** **A1**. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated by **A1** **A1**.

The UK participation in its preparation was entrusted by Technical Committee B/519, Masonry and associated testing, to Subcommittee B/519/2, Mortar.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Sector Committee for Building and Civil Engineering, was published under the authority of the Standards Committee and comes into effect on 15 November 1999

English version

Methods of test for mortar for masonry — Part 9: Determination of workable life and correction time of fresh mortar

Méthodes d'essai des mortiers pour maçonnerie —
Partie 9: Détermination de la période d'ouvrabilité
et du temps ouvert du mortier frais

Prüfverfahren für Mörtel für Mauerwerk —
Teil 9: Bestimmung der Verarbeitbarkeitszeit und der
Korrigierbarkeitszeit von Frischmörtel

This European Standard was approved by CEN on 8 July 1999.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
