Specification for

Pedestrian guard rails (metal)

Gr 5

British Standards Institution

This British Standard, having been approved by the Road Engineering Industry Standards Committee, was published under the authority of the Executive Board on 17 August, 1973.

© British Standards Institution, 1973

First published November 1958

First revision August 1973

ISBN: 0 580 07802 7

Copyright

Users of British Standards are reminded that copyright subsists in all BSI publications. No part of this publication may be reproduced in any form without the prior permission in writing of BSI. This does not preclude the free use, in the course of implementing the standard, of necessary details such as symbols and size, type or grade designations. Enquiries should be addressed to the BSI Secretariat.

Contract requirements

Attention is drawn to the fact that this British Standard does not purport to include all the necessary provisions of a contract.

Revision of British Standards

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. It is important that users of British Standards should ascertain that they are in possession of the latest amendments or editions. Full information on all BSI publications, numbering over 6000, will be found in the *British Standards Yearbook*. This information is supplemented by details published each month in *BSI News* of new publications, revisions and amendments.

BSI News is available to Subscribing Members of the Institution. All other publications may be purchased direct from Sales Department. Enquiries concerning subscribing membership, which has considerable advantages, will be welcomed, and should be made to Subscriptions Department. Both departments are located at:

101 Penionville Road, London N1 9ND (Telephone 01-837 8801; Telex 23218).

The following BSI references relate to the work on this standard:
Committee reference RDE/18 Draft for comment 69/4152

Co-operating organizations

The Road Engineering Industry Standards Committee, under whose supervision this British Standard was prepared, consists of representatives from the following Government departments and scientific and industrial organizations:

Asphalt and Coated Macadam Association
Association of Consulting Engineers

British Quarrying and Slag Federation

British Tar Industry Association

Cement and Concrete Association

Concrete Society

Contractors' Plant Association

*County Surveyors' Society

*Department of the Environment

*Department of the Environment (Transport and Road

Research Laboratory)

Federation of Civil Engineering Contractors

Federation of Manufacturers of Construction Equipment and
Cranes

*Greater London Council

Institute of Petroleum

Institute of Quarrying

*Institution of Civil Engineers

*Institution of Highway Engineers

*Institution of Municipal Engineers

Institution of Structural Engineers

Ministry of Defence (Army)

Refined Bitumen Association

Road Emulsion Association Limited

Road Surface Dressing Association

Sand and Gravel Association Limited

Society of Chemical Industry

Individual Experts

The Government departments and scientific and industrial organizations marked with an asterisk in the above list, together with the following, were directly represented on the committee entrusted with the preparation of this British Standard:

Automobile Association

Aluminium Federation

Association of Chief Police Officers

British Steel Industry

Metropolitan Police

Royal Automobile Club

Royal Society for the Prevention of Accidents

Society of Railing and Balustrade Makers
