

Methods of test for mortar for masonry —

Part 17: Determination of water-soluble chloride content of fresh mortars

The European Standard EN 1015-17:2000, with the incorporation of amendment A1:2004, has the status of a British Standard

ICS 91.080.30; 91.100.10

National foreword

This British Standard is the official English language version of EN 1015-17:2000, including amendment A1:2004, which is included in a package of new European Standards being prepared by CEN/TC 125 relating to mortar for masonry. No British Standard is superseded.

The UK participation in its preparation was entrusted by Technical Committee B/519, Masonry and associated tests, to Subcommittee B/519/2, Mortar, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 9 and a back cover.

**Methods of test for mortar for masonry - Part 17: Determination
of water-soluble chloride content of fresh mortars**
(includes amendment A1:2004)

Méthodes d'essai des mortiers pour maçonnerie - Partie
17: Détermination de la teneur en chlorure soluble des
mortiers frais
(inclut l'amendement A1:2004)

Prüfverfahren für Mörtel für Mauerwerk - Teil 17:
Bestimmung des Gehalts an wasserlöslichem Chlorid
von Frischmörteln
(enthält Änderung A1:2004)

This European Standard was approved by CEN on 25 February 2000, amendment A1 was approved by CEN on 6 August 2004.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
