

BSI Standards Publication

Trench lining systems

Part 1: Product specifications

National foreword

This British Standard is the UK implementation of EN 13331-1:2002.

The UK participation in its preparation was entrusted to Technical Committee B/514/WG29, Trench support systems.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Trench lining systems - Part 1: Product specifications

Dispositifs de blindage de tranchées - Partie 1:
Spécification du produit

Grabenverbaugeräte - Teil 1: Produktfestlegungen

This European Standard was approved by CEN on 6 July 2002.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
