Bitumen and bituminous binders - Determination of cohesion of bituminous binders with pendulum test

BS EN 13588:2017 BRITISH STANDARD

National foreword

This British Standard is the UK implementation of EN 13588:2017. It supersedes BS EN 13588:2008, which is withdrawn.

The UK committee draws users' attention to the CEN foreword, which states that there is a 'recommendation' to use stainless steel cubes, while the note to clause 6.3 'requires' the use of stainless steel cubes. No evidence has been presented to support the view that adhesive failure is more likely when using mild steel cubes in a water bath. Therefore, the UK committee considers the use of stainless steel cubes to be non-critical and is of the opinion that adhesive failure should be discounted from the calculation.

The UK participation in its preparation was entrusted to Technical Committee PTI/13, Petroleum Testing and Terminology.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Bitumen and bituminous binders - Determination of cohesion of bituminous binders with pendulum test

Bitumes et liants bitumineux - Détermination de la cohésion des liants bitumineux par la méthode du mouton-pendule Bitumen und bitumenhaltige Bindemittel -Bestimmung der Kohäsion von bitumenhaltigen Bindemitteln mit der Pendelprüfung

This European Standard was approved by CEN on 7 August 2017.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.
