

# Safety fences and barriers for highways —

## Part 5: Specification for open box beam safety fence (single height)

UDC 625.738 + 692.88

# Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Road Engineering Standards Committee (RDB/-) to Technical Committee RDB/18, upon which the following bodies were represented;

- Aluminium Federation
- Association of Consulting Engineers
- British Railways Board
- British Steel Industry
- Cement and Concrete Association
- Convention of Scottish Local Authorities
- County Surveyor’s Society
- Department of Transport (Highways)
- Institution of British Engineers
- Institution of Civil Engineers
- Institution of Highways and Transportation
- Royal Automobile Club
- Royal Society for the Prevention of Accidents
- Coopted members

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Department of Transport (Transport and Road Research Laboratory)
- Fencing Contractors’ Association

This British Standard, having been prepared under the direction of the Road Engineering Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 December 1986

Committees responsible	Inside front cover
Foreword	ii
0 Introduction	1
1 Scope	1
2 Definitions	2
3 Components	2
4 Tolerances	3
5 Protective finish	3
6 Marking	3
Appendix A Vehicle safety fences and barriers for highways: type characteristics	4
Appendix B Transition between safety fences, bridge parapets and other types of safety fence	5
Appendix C Schedule for components for 1 km of fence	5
Appendix D Mounting of open box beam safety fence on acoustic barrier	5
Appendix E Limiting radius of installation on a curve	9
Appendix F Transport handling and storage	9
Appendix G Information to be supplied	9
Figure 1 — General arrangement of an open box beam safety fence	10
Figure 2 — Details of posts, spacers, fishplates and stiffeners	11
Figure 3 — Anchorages	12
Figure 4 — Section through fence: beams	13
Figure 5 — Mounting bracket, transition pieces and clamp plates	14
Figure 6 — Mounting brackets for open box beam safety fence on acoustic barrier	15
Figure 7 — Open box beam safety fence connection to steel parapet	16
Figure 8 — Open box beam safety fence connection to BACO parapet	17
Figure 9 — Open box beam safety fence connection to Alcan High Duty Extrusions Ltd. parapet	18
Figure 10 — Open box beam safety fence connection to concrete safety barrier: single-sided	19
Figure 11 — Open box beam safety fence connection to concrete safety barrier: double-sided	20
Figure 12 — Mounting of open box beam safety fence on acoustic barrier	21
Figure 13 — Diagrammatical representation of fences and barriers	22
