

Building construction — Sealants — Determination of adhesion/cohesion properties of sealants after immersion in water

The European Standard EN ISO 10591:2005 has the status of a British Standard

ICS 91.100.50

National foreword

This British Standard is the UK implementation of EN ISO 10591:2005. It is identical with ISO 10591:2005. It supersedes BS EN ISO 10591:1998 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee B/547, Sealants for building and construction.

A list of organizations represented on this committee can be obtained on request to its secretary.

Additional information

BS EN ISO 10591:2005 is a test method useful in the determination of adhesive/cohesive properties after immersion in water and one of the procedures used for classifying construction sealants within BS EN ISO 11600:2003. It is not suitable for testing sealants for water-retaining structures or for potable water systems. ISO 13638 is designed for the assessment of the long-term resistance of sealants to be permanently immersed in water.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

Amendments issued since publication

Amd. No.	Date	Comments
17268	31 August 2007	“Additional information” in the national foreword revised

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 18 November 2005

English Version

Building construction - Sealants - Determination of
adhesion/cohesion properties of sealants after immersion in
water (ISO 10591:2005)

Construction immobilière - Produits pour joints -
Détermination des propriétés d'adhésivité/cohésion des
mastics après immersion dans l'eau (ISO 10591:2005)

Hochbau - Fugendichtstoffe - Bestimmung des Haft- und
Dehnverhaltens nach dem Tauchen in Wasser (ISO
10591:2005)

This European Standard was approved by CEN on 20 June 2005.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
