National foreword

This British Standard is the UK implementation of ISO 10845-2:2011.

In 7.4.1 NOTE 1, reference is made to the TN and TT systems of earth connection for low-voltage distribution systems. Table 2 shows only TT and TN systems, although other systems are allowed by the NOTE 2. For application in the UK, it should be noted that IT systems are not prohibited by this standard.

The UK participation in its preparation was entrusted to Technical Committee CB/500, Procurement.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Guidance for the use of BS ISO 10845-2:2011 in the UK is in National Annex NA.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 2.

The main task of technical committees is to prepare International Standards. Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights.

ISO 10845-2 was prepared by Technical Committee ISO/TC 59, *Buildings and civil engineering works*.

ISO 10845 consists of the following parts, under the general title *Construction procurement*:

- *Part 1: Processes, methods and procedures*
- *Part 2: Formatting and compilation of procurement documentation*
- *Part 3: Standard conditions of tender*
- *Part 4: Standard conditions for the calling for expressions of interest*
- *Part 5: Participation of targeted enterprises in contracts*
- *Part 6: Participation of targeted partners in joint ventures in contracts*
- *Part 7: Participation of local enterprises and labour in contracts*
- *Part 8: Participation of targeted labour in contracts*
