General

Instruction No. 1

A443-1989
December 1989

CSA Special Publication A443-1989, *Terms and Definitions for Use in CSA Masonry Standards*, consists of **47** pages, each dated **December 1989**.

This Special Publication, like all CSA Standards, is subject to periodic review, and amendments in the form of replacement pages may be issued from time to time; such pages will be mailed automatically to those purchasers who complete and return the attached card.* Some Publications require frequent revision between editions, whereas others require none at all. It is planned to issue new editions of the Special Publication, regardless of the amount of revision, at intervals not greater than 5 years. Except in unusual circumstances, replacement pages will not be issued during the last year of that edition.

**This card will appear with General Instruction No. 1 only.*

Although any replacement pages that have been issued will be sold with the Special Publication, it is for the purchaser to insert them where they apply. The responsibility for ensuring that his or her copy is complete rests with the holder of the Publication, who should, for the sake of reference, retain those pages which have been replaced.

Note: A General Instruction sheet will accompany replacement pages each time they are issued and will list the latest date of each page of the Special Publication.

Cut along dotted line.
