CSA PLUS 4011.1:19

Technical Guide: Design and construction considerations for foundations in permafrost regions

Legal Notice for Standards

Canadian Standards Association (operating as "CSA Group") develops standards through a consensus standards development process approved by the Standards Council of Canada. This process brings together volunteers representing varied viewpoints and interests to achieve consensus and develop a standard. Although CSA Group administers the process and establishes rules to promote fairness in achieving consensus, it does not independently test, evaluate, or verify the content of standards.

Disclaimer and exclusion of liability

This document is provided without any representations, warranties, or conditions of any kind, express or implied, including, without limitation, implied warranties or conditions concerning this document's fitness for a particular purpose or use, its merchantability, or its non-infringement of any third party's intellectual property rights. CSA Group does not warrant the accuracy, completeness, or currency of any of the information published in this document. CSA Group makes no representations or warranties regarding this document's compliance with any applicable statute, rule, or regulation.

IN NO EVENT SHALL CSA GROUP, ITS VOLUNTEERS, MEMBERS, SUBSIDIARIES, OR AFFILIATED COMPANIES, OR THEIR EMPLOYEES, DIRECTORS, OR OFFICERS, BE LIABLE FOR ANY DIRECT, INDIRECT, OR INCIDENTAL DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES, HOWSOEVER CAUSED, INCLUDING BUT NOT LIMITED TO SPECIAL OR CONSEQUENTIAL DAMAGES, LOST REVENUE, BUSINESS INTERRUPTION, LOST OR DAMAGED DATA, OR ANY OTHER COMMERCIAL OR ECONOMIC LOSS, WHETHER BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR ANY OTHER THEORY OF LIABILITY, ARISING OUT OF OR RESULTING FROM ACCESS TO OR POSSESSION OR USE OF THIS DOCUMENT, EVEN IF CSA GROUP HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES.

In publishing and making this document available, CSA Group is not undertaking to render professional or other services for or on behalf of any person or entity or to perform any duty owed by any person or entity to another person or entity. The information in this document is directed to those who have the appropriate degree of experience to use and apply its contents, and CSA Group accepts no responsibility whatsoever arising in any way from any and all use of or reliance on the information contained in this document.

CSA Group is a private not-for-profit company that publishes voluntary standards and related documents. CSA Group has no power, nor does it undertake, to enforce compliance with the contents of the standards or other documents it publishes.

Intellectual property rights and ownership

As between CSA Group and the users of this document (whether it be in printed or electronic form), CSA Group is the owner, or the authorized licensee, of all works contained herein that are protected by copyright, all trade-marks (except as otherwise noted to the contrary), and all inventions and trade secrets that may be contained in this document, whether or not such inventions and trade secrets are protected by patents and applications for patents. Without limitation, the unauthorized use, modification, copying, or disclosure of this document may violate laws that protect CSA Group's and/or others' intellectual property and may give rise to a right in CSA Group negroes all intellectual property rights in this document.

Patent rights

Attention is drawn to the possibility that some of the elements of this standard may be the subject of patent rights. CSA Group shall not be held responsible for identifying any or all such patent rights. Users of this standard are expressly advised that determination of the validity of any such patent rights is entirely their own responsibility.

Authorized use of this document

This document is being provided by CSA Group for informational and non-commercial use only. The user of this document is authorized to do only the following:

If this document is in electronic form:

- load this document onto a computer for the sole purpose of reviewing it;
- search and browse this document; and
- print this document if it is in PDF format.

Limited copies of this document in print or paper form may be distributed only to persons who are authorized by CSA Group to have such copies, and only if this Legal Notice appears on each such copy.

In addition, users may not and may not permit others to

- alter this document in any way or remove this Legal Notice from the attached standard;
- sell this document without authorization from CSA Group; or
- · make an electronic copy of this document.

If you do not agree with any of the terms and conditions contained in this Legal Notice, you may not load or use this document or make any copies of the contents hereof, and if you do make such copies, you are required to destroy them immediately. Use of this document constitutes your acceptance of the terms and conditions of this Legal Notice.

Contents

Technical Committee on Northern Built Infrastructure 4

Subcommittee on Foundations in Permafrost Technical Guide 6

Preface 7

- **1** Introduction 8
- 1.1 Background 8
- 1.2 Purpose 8
- 1.3 Document structure 8

2 Permafrost distribution and conditions 9

- 2.1 Distribution of permafrost 9
- 2.2 Permafrost ground temperature ranges 10
- 2.3 Physical features of permafrost terrain 12
- 2.4 Ice content 15
- 2.5 Salinity and other contamination 16
- 2.6 Ground thermal regime 17
- 2.7 Terrain sensitivity 18
- 2.8 Surface hydrology 19
- 2.9 Climate change effects 19
- 2.10 Physiographic effects on ground thermal regime and foundations 20

3 Permafrost considerations for foundation design 21

- 3.1 General 21
- 3.2 Ground temperature 22
- 3.3 Strength of frozen soil and creep 22
- 3.3.1 Strength of frozen soil 22
- 3.3.2 Creep 26
- 3.4 Effect of salinity 28
- 3.5 Physiographic considerations 28
- 3.6 Potential impacts of buildings on ground thermal regime 29
- 3.7 Climate change considerations 29
- 3.8 Geotechnical investigation 29
- 3.9 Geothermal modelling 30
- 3.10 Site preparation 31
- 3.11 Foundation selection Flowchart 31
- 3.12 Bearing capacity/Adfreeze bond capacity 33
- 3.13 Thaw settlement 33
- 3.14 Frost heave 34
- 3.15 Frost jacking 35
- 3.16 Adaptive foundation design 35
- 3.17 Mitigation techniques to reduce the effects of heat transfer 36

4 Resource and logistical considerations — Northern-specific constraints and construction planning consideration 36

4.1 General 36

November 2019

© 2019 Canadian Standards Association

- 4.2 Local availability of resources 38
- 4.2.1 General 38
- 4.2.2 Material 39
- 4.2.3 Equipment *39*
- 4.2.4 Labour market 39
- 4.3 Logistics and transportation 40
- 4.3.1 General 40
- 4.3.2 Air transport 40
- 4.3.3 Land transport 40
- 4.3.4 Water transport 41
- 4.3.5 Rail transport 41
- 4.3.6 Site accommodation 41
- 4.3.7 Storage 42
- 4.4 Climate consideration 42
- 4.5 Social consideration 42

5 Shallow foundations 42

- 5.1 General 42
- 5.2 Pads and wedges 46
- 5.3 Timber sills 47
- 5.4 Post and pad 49
- 5.5 Spaceframe foundations 50
- 5.6 Slabs on grade 52
- 5.7 Footings in or on permafrost 53
- 5.8 Footings on rock 55
- 5.9 Strip footings on grade 56
- 5.10 Thermosyphon 57
- 5.11 Basements 59

6 Deep foundations 59

- 6.1 General 59
- 6.2 Driven piles 63
- 6.3 Slurry backfilled adfreeze piles 64
- 6.3.1 Slurry backfilled adfreeze pile installation 64
- 6.3.2 Freezeback of slurry backfilled adfreeze piles 65
- 6.3.3 Slurry backfilled adfreeze pile design considerations 68
- 6.4 Modified slurry piles 69
- 6.5 Screw piles 70
- 6.6 End bearing piles 70
- 6.6.1 General 70
- 6.6.2 Presence of competent end-bearing stratum 70
- 6.6.3 Rock socketed piles 70
- 6.7 Thermopiles 70
- 6.8 Frost jacking of piles 73

7 Insulation materials 74

- 7.1 General 74
- 7.2 Types of insulation 75
- 7.2.1 General 75

© 2019 Canadian Standards Association

Polystyrene 7.2.2 75 Polyurethane (PUR) 7.2.3 76 7.2.4 Polyisocyanurate (PIR) 77 7.3 R-Value 78 7.4 Advanced thermal insulation materials 7.5 Phase change materials (PCMs)

8 Inspection and monitoring 80

- 8.1 General 80
- 8.2 Inspection protocols 81
- 8.3 Operational monitoring of foundations 81
- 8.4 Maintenance 83
