Technical Committee on Hydraulic Cement and Supplementary Materials x

Preface xv

A5, Portland Cement 1

1. Scope 3

1.1 Scope 3

1.2 Types 3

2. Reference Publications and Definition 3

2.1 Reference Publications 3

2.2 Test Methods and Standard Practices 4

2.3 Definition 4

3. General Requirements 4

3.1 Chemical Requirements 4

3.2 Physical Requirements 5

3.2.1 General 5

3.2.2 Autoclave Retest 5

3.3 Processing Requirements 5

3.4 Uniformity Requirements 5

3.4.1 General 5

3.4.2 Time of Test 5

3.4.3 Method of Uniformity Calculation 5

4. Sampling, Testing, and Inspection 6

5. Units, Packaging, Marking, and Storage 6

Appendix A — Optional Test Requirements 9

A8, Masonry Cement 11

1. Scope 13

2. Reference Publications and Definitions 13

2.1 Reference Publications 13

2.1.1 Standards 13

2.1.2 Test Methods and Standard Practices 13

2.2 Definitions 13

3. Test Requirements 14

3.1 General 14

3.2 Mass of Cement 14

4. Packaging, Marking, and Storage 14

5. Sampling, Testing, and Inspection 14

5.1 Inspection 14

5.2 Sampling 14

Appendix A — Sampling and Inspection 16

A23.5, Supplementary Cementing Materials 17

1. Scope 19

2. Reference Publications and Definitions 19

2.1 Reference Publications 19

2.1.1 Standards 19

2.1.2 Test Methods and Standard Practices 20

2.2 Definitions 20

3. Types of Supplementary Cementing Materials 21

3.1 Fly Ashes and Natural Pozzolans 21

3.2 Granulated Slag 22

3.3 Silica Fume 22

3.4 Blended Supplementary Cementing Materials 22

3.4.1 Blended Supplementary Cementing Materials 22

3.4.2 Nomenclature 22

4. Requirements for Supplementary Cementing Materials 22

4.1 General 22

4.1.1 Supplementary Cementing Materials 22

4.1.2 Blended Supplementary Cementing Materials 22

4.2 Chemical and Physical Requirements 23

4.3 Sampling, Testing, and Inspection 23

4.4 Test Methods 23

4.5 Information to Be Supplied by the Manufacturer 23

4.5.1 Chemical Composition 23

4.5.2 Density 23

4.5.3 Source Qualification Report 23

4.6 Packaging and Marking 23

Appendices

A — Optional Test Requirements 25

B — Guidelines for the Use of Supplementary Cementing Materials in Concrete 26

A362, Blended Hydraulic Cement 27

1. Scope 29

1.1 General 29

1.2 Types 29

1.2.1 Basic Types 29

1.2.2 Nomenclature 29
