

GENERAL INSTRUCTION

(Please read carefully)

CSA Standard A251-M1982, Qualification Code for Manufacturers of Architectural and Structural Precast Concrete, consists of 63 pages, each dated June, 1982.

This Standard, like all CSA Standards, is subject to periodical review, and amendments in the form of replacement pages may be issued from time to time; such pages will be mailed automatically to those purchasers who complete and return the attached card.*

**This card will appear with General Instruction No. 1 only.*

Note: A General Instruction sheet will accompany replacement pages each time they are issued and will list the latest date of each page of the Standard.

Although any replacement pages that have been issued will be sold with the Standard, it is for the purchaser to insert them where they apply. The responsibility for ensuring that his or her copy is complete rests with the holder of the Standard, who should, for the sake of reference, retain those pages which have been replaced.

6	Committee on Qualification Code for Manufacturers of Architectural and Structural Precast Concrete
7	Preface
10	Foreword
	Standard
11	1. Scope
12	2. Categories and Definitions
13	3. Facilities and Personnel
13	3.1 General
14	3.2 Storage of Materials
14	3.3 Batching and Mixing
14	3.3.1 General
14	3.3.2 Batching
15	3.3.3 Mixing
15	3.4 Reinforcement and Hardware
15	3.5 Form and Mould Fabrication
15	3.5.1 Forms for Structural Concrete Elements
15	3.5.2 Forms for Prestressed Concrete Elements
15	3.5.3 Moulds for Architectural Concrete Elements
15	3.6 Production Facilities for Structural Concrete
15	3.6.1 General
15	3.6.2 Concrete Handling Equipment
16	3.6.3 Concrete Consolidation Equipment
16	3.6.4 Product Handling Equipment
16	3.7 Production Facilities for Prestressed Concrete
16	3.7.1 Prestressing Beds and Forms
16	3.7.2 Prestressing Equipment
16	3.7.3 Concrete Handling Equipment
16	3.7.4 Concrete Consolidation Equipment
16	3.7.5 Product Handling Equipment
16	3.7.6 Post-tensioning Equipment
16	3.8 Production Facilities for Architectural Products
16	3.8.1 General
16	3.8.2 Concrete Handling Equipment
16	3.8.3 Concrete Consolidation Equipment
16	3.8.4 Product Handling Equipment
17	3.8.5 Finishing Facilities
17	3.9 Production Facilities for Hollow-Core Products
17	3.10 Production Facilities for Special Products
17	3.11 Curing Facilities
17	3.11.1 Normal Curing
17	3.11.2 Accelerated Curing
17	3.12 Concrete Laboratory Facilities
18	3.13 Storage of Finished Products
18	3.13.1 Area Requirements

June, 1982

18	3.13.2 <i>Handling Equipment</i>
18	3.14 <i>Maintenance Facilities</i>
18	3.15 <i>Personnel</i>
18	3.15.1 <i>General</i>
18	3.15.2 <i>Functional Responsibilities</i>
20	3.15.3 <i>Organization of Personnel</i>
20	4. Engineering
20	4.1 <i>Design Capability</i>
21	4.2 <i>Plant Engineering Capability</i>
22	4.3 <i>Design Requirements for Precast Concrete</i>
22	4.4 <i>Specifications for Precast Concrete</i>
22	4.5 <i>Shop Drawings</i>
23	4.6 <i>Additional Plant Standards</i>
23	5. Materials
23	5.1 <i>Concrete</i>
24	5.2 <i>Prestressing Materials</i>
24	5.3 <i>Reinforcing Steel</i>
24	5.4 <i>Hardware Material</i>
24	5.5 <i>Miscellaneous Materials</i>
25	5.6 <i>Fabrication of Reinforcement</i>
25	5.7 <i>Fabrication of Hardware</i>
26	6. Concrete Production
26	6.1 <i>Selecting Mix Proportions</i>
26	6.1.1 <i>General</i>
26	6.1.2 <i>Strength of Concrete</i>
26	6.1.3 <i>Other Mix Characteristics</i>
26	6.1.4 <i>Admixtures</i>
27	6.1.5 <i>Plant Standards for Concrete Mixes</i>
27	6.2 <i>Batching and Mixing</i>
27	6.3 <i>Transportation of Concrete</i>
27	6.4 <i>Concreting During Hot or Cold Weather</i>
27	6.5 <i>Curing</i>
28	6.6 <i>Damage and Repairs</i>
28	7. Handling, Yarding, and Storage
28	8. Transportation and Erection
28	8.1 <i>Manufacturers' Responsibilities</i>
28	8.2 <i>Loading and Delivery</i>
28	8.3 <i>Erection</i>
28	8.4 <i>Job Site Repairs</i>
28	8.5 <i>Inspection and Acceptance Procedures</i>
28	9. Quality Control
28	9.1 <i>Objectives and Methods</i>
29	9.2 <i>Inspection, Testing, and Record-Keeping</i>
29	9.2.1 <i>General</i>
30	9.2.2 <i>Component Materials</i>
31	9.2.3 <i>Concrete</i>
33	9.2.4 <i>Other Production Controls</i>
35	9.3 <i>Quality Control of Finished Products and Repairs</i>
35	9.4 <i>Assessment of Plant Standards</i>

36	10. Safety
37	11. Production of Structural Concrete
37	11.1 Forms
37	11.2 Set-Up
37	11.3 Placing and Consolidation of Concrete
38	11.4 Finishing of Concrete
38	11.5 Stripping of Concrete Elements
39	12. Production of Prestressed Concrete
39	12.1 Stressing Requirements
40	12.2 Forms
40	12.3 Set-Up
40	12.4 Pre-tensioning
40	12.5 Placing and Consolidation of Concrete
41	12.6 Finishing of Concrete
41	12.7 De-tensioning and Stripping
41	12.8 Post-tensioning
41	13. Production of Architectural Concrete
41	13.1 Project Samples and Approval
41	13.2 Moulds
42	13.3 Set-Up
42	13.4 Placing and Consolidation of Concrete
42	13.5 Finishing of Plastic Concrete
43	13.6 Special Architectural Finishes
43	13.7 Stripping
43	13.8 Sandwich Wall Panels
43	14. Production of Hollow-Core Elements
43	14.1 General
43	14.2 Stressing Requirements
43	14.3 Forms
44	14.4 Set-Up
44	14.5 Pre-tensioning
44	14.6 Placing and Consolidation of Concrete
44	14.7 Finishing of Concrete
44	14.8 De-tensioning and Stripping
44	15. Production of Specialty Concrete Elements
46	Table 1
47	Appendix A—Responsibilities
49	Appendix B—Scope of Work Included in Precast Projects
52	Appendix C—Description of Architectural Finishes
55	Appendix D—Plant Standards
58	Appendix E—Submittal of Quality Control Data to Prime Consultants
59	Appendix F—Weighted Checklist for Rating of Precast Concrete Plants

**Committee on Qualification Code for
Manufacturers of Architectural and
Structural Precast Concrete**

T.J. Bartkiewicz (*Chairman*)

Abacus Engineering,
Calgary, Alberta

J.P. Audet

Vibrex Inc.,
Quebec, Quebec

R.G. Butler

CN Rail Research Centre,
St. Laurent, Quebec

S.W. Cartwright

Alberta Labour,
Calgary

K.A. Cowan

City of Mississauga,
Mississauga, Ontario

S. Cumming

Canadian Portland Cement Association,
Ottawa, Ontario

L.F. Dixon

Alberta Transportation,
Edmonton

M. Handa (*Associate*)

Canadian Standards Association,
Rexdale, Ontario

K. Holbek

Kai Holbek Associates Ltd.,
West Vancouver, British Columbia

D. Isnor

Strescon Ltd.,
Saint John, New Brunswick

L. Kulesar

Stanley Structures Ltd.,
Belleville, Ontario

R.L.M. Maki

City Hall,
Vancouver, British Columbia

R. Martineau

Matineau, Vallée et Associés,
Montréal, Québec

P. McWatt

Ontario Ministry of Transportation
and Communications,
Downsview

D.B. Munro

Department of Public Works,
Ottawa, Ontario

D. Pickersgill

Genstar Structures Limited,
Calgary, Alberta

E.C. Shelestynsky (*Associate*)

Brampton, Ontario

I. Verstraten

Supercrete Inc.,
Calgary, Alberta

L. Pagano (*Secretary, Non-voting*)

Canadian Standards Association,
Rexdale, Ontario
