# Legal Notice for Standards

Canadian Standards Association (operating as “CSA Group”) develops standards through a consensus standards development process approved by the Standards Council of Canada. This process brings together volunteers representing varied viewpoints and interests to achieve consensus and develop a standard. Although CSA Group administers the process and establishes rules to promote fairness in achieving consensus, it does not independently test, evaluate, or verify the content of standards.

## Disclaimer and exclusion of liability

This document is provided without any representations, warranties, or conditions of any kind, express or implied, including, without limitation, implied warranties or conditions concerning this document’s fitness for a particular purpose or use, its merchantability, or its non-infringement of any third party’s intellectual property rights. CSA Group does not warrant the accuracy, completeness, or currency of any of the information published in this document. CSA Group makes no representations or warranties regarding this document’s compliance with any applicable statute, rule, or regulation.

IN NO EVENT SHALL CSA GROUP, ITS VOLUNTEERS, MEMBERS, SUBSIDIARIES, OR AFFILIATED COMPANIES, OR THEIR EMPLOYEES, DIRECTORS, OR OFFICERS, BE LIABLE FOR ANY DIRECT, INDIRECT, OR INCIDENTAL DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES, HOWSOEVER CAUSED, INCLUDING BUT NOT LIMITED TO SPECIAL OR CONSEQUENTIAL DAMAGES, LOST REVENUE, BUSINESS INTERRUPTION, LOST OR DAMAGED DATA, OR ANY OTHER COMMERCIAL OR ECONOMIC LOSS, WHETHER BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR ANY OTHER THEORY OF LIABILITY, ARISING OUT OF OR RESULTING FROM ACCESS TO OR POSSESSION OR USE OF THIS DOCUMENT, EVEN IF CSA GROUP HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES.

In publishing and making this document available, CSA Group is not undertaking to render professional or other services for or on behalf of any person or entity or to perform any duty owed by any person or entity to another person or entity. The information in this document is directed to those who have the appropriate degree of experience to use and apply its contents, and CSA Group accepts no responsibility whatsoever arising in any way from any and all use of or reliance on the information contained in this document.

CSA Group is a private not-for-profit company that publishes voluntary standards and related documents. CSA Group has no power, nor does it undertake, to enforce compliance with the contents of the standards or other documents it publishes.

## Intellectual property rights and ownership

As between CSA Group and the users of this document (whether it be in printed or electronic form), CSA Group is the owner, or the authorized licensee, of all works contained herein that are protected by copyright, all trade-marks (except as otherwise noted to the contrary), and all inventions and trade secrets that may be contained in this document, whether or not such inventions and trade secrets are protected by patents and applications for patents. Without limitation, the unauthorized use, modification, copying, or disclosure of this document may violate laws that protect CSA Group’s and/or others’ intellectual property and may give rise to a right in CSA Group and/or others to seek legal redress for such use, modification, copying, or disclosure. To the extent permitted by licence or by law, CSA Group reserves all intellectual property rights in this document.

## Patent rights

Attention is drawn to the possibility that some of the elements of this standard may be the subject of patent rights. CSA Group shall not be held responsible for identifying any or all such patent rights. Users of this standard are expressly advised that determination of the validity of any such patent rights is entirely their own responsibility.

## Authorized use of this document

This document is being provided by CSA Group for informational and non-commercial use only. The user of this document is authorized to do only the following:

If this document is in electronic form:

- load this document onto a computer for the sole purpose of reviewing it;
- search and browse this document; and
- print this document if it is in PDF format.

Limited copies of this document in print or paper form may be distributed only to persons who are authorized by CSA Group to have such copies, and only if this Legal Notice appears on each such copy.

In addition, users may not and may not permit others to

- alter this document in any way or remove this Legal Notice from the attached standard;
- sell this document without authorization from CSA Group; or
- make an electronic copy of this document.

If you do not agree with any of the terms and conditions contained in this Legal Notice, you may not load or use this document or make any copies of the contents hereof, and if you do make such copies, you are required to destroy them immediately. Use of this document constitutes your acceptance of the terms and conditions of this Legal Notice.

**Canadian Standards Association (operating as “CSA Group”)**, under whose auspices this National Standard has been produced, was chartered in 1919 and accredited by the Standards Council of Canada to the National Standards system in 1973. It is a not-for-profit, nonstatutory, voluntary membership association engaged in standards development and certification activities.

CSA Group standards reflect a national consensus of producers and users — including manufacturers, consumers, retailers, unions and professional organizations, and governmental agencies. The standards are used widely by industry and commerce and often adopted by municipal, provincial, and federal governments in their regulations, particularly in the fields of health, safety, building and construction, and the environment.

Individuals, companies, and associations across Canada indicate their support for CSA Group’s standards development by volunteering their time and skills to Committee work and supporting CSA Group’s objectives through sustaining memberships. The more than 7000 committee volunteers and the 2000 sustaining memberships together form CSA Group’s total membership from which its Directors are chosen. Sustaining memberships represent a major source of income for CSA Group’s standards development activities.

CSA Group offers certification and testing services in support of and as an extension to its standards development activities. To ensure the integrity of its certification process, CSA Group regularly and continually audits and inspects products that bear the CSA Group Mark.

In addition to its head office and laboratory complex in Toronto, CSA Group has regional branch offices in major centres across Canada and inspection and testing agencies in eight countries. Since 1919, CSA Group has developed the necessary expertise to meet its corporate mission: CSA Group is an independent service organization whose mission is to provide an open and effective forum for activities facilitating the exchange of goods and services through the use of standards, certification and related services to meet national and international needs.

For further information on CSA Group services, write to  
CSA Group  
178 Rexdale Boulevard  
Toronto, Ontario, M9W 1R3  
Canada

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at [www.scc.ca](http://www.scc.ca).

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at [www.scc.ca](http://www.scc.ca).

Technical Committee on Masonry Connectors	4
Preface	6
<b>1 Scope</b>	<b>8</b>
<b>2 Reference publications</b>	<b>9</b>
<b>3 Definitions</b>	<b>10</b>
<b>4 Materials and practices</b>	<b>12</b>
4.1 Materials	12
4.1.1 General	12
4.1.2 Fasteners	12
4.2 Practices	13
4.2.1 General	13
4.2.2 Welding	13
4.2.3 Handling	13
4.2.4 Identification of wall ties	14
<b>5 Corrosion protection</b>	<b>14</b>
5.1 Effective life	14
5.2 Minimum level of corrosion protection	14
5.2.1 General	14
5.2.2 Level 1 corrosion protection	15
5.2.3 Level 2 corrosion protection	15
5.2.4 Level 3 corrosion protection	15
5.2.5 Material compatibility	15
<b>6 Thickness requirements</b>	<b>17</b>
6.1 Individual connectors	17
6.2 Continuous connectors	17
<b>7 Maximum spacing of connectors</b>	<b>18</b>
7.1 Ties	18
7.1.1 Maximum spacing of ties	18
7.1.2 Spacings at openings	18
7.1.3 Spacings at wall top	18
7.1.4 Spacings at wall base	18
7.1.5 Spacing for high-lift grouting and stone masonry	18
7.2 Wall anchors	19
7.2.1 General	19
7.2.2 Spacing for shear wall anchors	19
7.3 Partition anchors	19
7.3.1 General	19
7.3.2 Maximum spacing of horizontal lateral support anchors	19
7.3.3 Maximum spacing of vertical lateral support anchors	19

<b>8</b>	<b>Minimum strength of connectors</b>	<b>19</b>
8.1	Ties	19
8.2	Wall anchors	20
8.3	Partition anchors	20
<b>9</b>	<b>Design of connectors</b>	<b>20</b>
9.1	General	20
9.2	Ultimate strength	20
9.2.1	General	20
9.2.2	Determination of ultimate strength	20
9.3	Serviceability	22
9.3.1	Differential movements	22
9.3.2	Connector rigidity	22
9.3.3	Tie displacement and mechanical free play	22
9.3.4	Adjustable connectors	23
9.4	General design	23
9.4.1	Design method	23
9.4.2	Limit states design	24
9.5	Structural integrity	24
<b>10</b>	<b>Prescriptive connectors</b>	<b>25</b>
10.1	Connector thickness	25
10.2	Connector spacing	25
10.3	Connector strength and serviceability	25
10.4	Cavity width	26
10.4.1	Design width	26
10.4.2	Constructed width	26
10.5	Prescriptive ties	26
10.5.1	Corrugated strip ties	26
10.5.2	Z-wire ties	27
10.5.3	Rectangular wire ties	27
10.5.4	Continuous-welded ladder and truss ties/reinforcing	28
10.5.5	Dovetail anchor/ties and corrugated dovetail anchor/ties	29
10.6	Anchors	30
10.6.1	Bar anchors	30
10.6.2	Bolt and rod anchors	31
10.7	Fasteners	32
10.7.1	General	32
10.7.3	Fasteners for corrugated strip ties	32
10.7.4	Nails	32
10.7.5	Powder actuated fasteners	32
<b>11</b>	<b>Repair connectors</b>	<b>32</b>
11.1	Connector material	32
11.2	Connector thickness	32
