

DIN EN 13391

ICS 91.080.40

Mechanical tests for post-tensioning systems

English version of DIN EN 13391

Mechanische Prüfungen für Spannverfahren mit nachträglichem Verbund

European Standard EN 13391 : 2004 has the status of a DIN Standard.

A comma is used as the decimal marker.

National foreword

This standard has been prepared by CEN/TC 250 'Structural Eurocodes' (Secretariat: United Kingdom). The responsible German body involved in its preparation was the *Normenausschuss Bauwesen* (Building and Civil Engineering Standards Committee).

Document comprises 22 pages.

English version

Mechanical tests for post-tensioning systems

Essais mécaniques concernant les
procédés de précontrainte par post-
tension

Mechanische Prüfungen für Spannver-
fahren mit nachträglichem Verbund

This European Standard was approved by CEN on 2003-11-03.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland, and the United Kingdom.
