English version

Timber structures
Test methods
General principles for static load testing

Structures en bois; méthodes d'essais;
principes généraux d'essais par charge-
ment statique

Holzbauwerke; Prüfverfahren; allgemeine
Grundsätze für die Prüfung unter sta-
tischen Belastungen

This European Standard was approved by CEN on 1993-07-15.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
