

	Thermal performance of windows, doors and shutters – Determination of thermal transmittance by hot box method Part 4: Roller shutter boxes English version of DIN EN 12412-4	DIN EN 12412-4
--	---	-------------------

ICS 91.060.50; 91.120.10

Wärmetechnisches Verhalten von Fenstern, Türen und Abschlüssen – Bestimmung des Wärmedurchgangskoeffizienten mittels des Heizkastenverfahrens – Teil 4: Rollladenkästen

**European Standard EN 12412-4 : 2003 has the status of a DIN Standard.**

*A comma is used as the decimal marker.*

**National foreword**

This standard has been prepared by CEN/TC 89 'Thermal performance of buildings and building components' (Secretariat: Sweden).

The responsible German body involved in its preparation was the *Normenausschuss Bauwesen* (Building and Civil Engineering Standards Committee), Technical Committee 00.89.00 *Wärmeschutz*.

EN comprises 36 pages.

This is a preview. Click [here](#) to purchase the full publication.

**English version**

**Thermal performance of windows, doors and shutters –  
Determination of thermal transmittance by hot box method  
Part 4: Roller shutter boxes**

Performance thermique des fenêtres,  
portes et fermetures – Détermination  
du coefficient de transmission ther-  
mique par la méthode de la boîte  
chaude – Partie 4: Coffres de volets  
roulants

Wärmetechnisches Verhalten von Fens-  
tern, Türen und Abschlüssen – Be-  
stimmung des Wärmedurchgangs-  
koeffizienten mittels des Heizkasten-  
verfahrens – Teil 4: Rollladenkästen

This European Standard was approved by CEN on 2003-05-02.  
CEN members are bound to comply with the CEN/CENELEC Internal Regulations  
which stipulate the conditions for giving this European Standard the status of a  
national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national stand-  
ards may be obtained on application to the Management Centre or to any  
CEN member.

The European Standards exist in three official versions (English, French, German).  
A version in any other language made by translation under the responsibility of a  
CEN member into its own language and notified to the Management Centre has  
the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, the Czech  
Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland,  
Ireland, Italy, Luxembourg, Malta, the Netherlands, Norway, Portugal, Slovakia,  
Spain, Sweden, Switzerland, and the United Kingdom.

## Foreword

This document EN 12412-4:2003 has been prepared by Technical Committee CEN /TC 89, "Thermal performance of buildings and building components", the secretariat of which is held by SIS.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by January 2004, and conflicting national standards shall be withdrawn at the latest by January 2004.

This standard is one of a series of standards on calculation and measurement methods for the design and evaluation of the thermal performance of buildings and building components.

Annexes A and B are normative.

Annex C is informative.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and the United Kingdom.
