**Geotechnical investigation and testing –
Testing of geotechnical structures –
Part 4: Testing of piles: dynamic load testing (ISO 22477-4:2018);
English version EN ISO 22477-4:2018,
English translation of DIN EN ISO 22477-4:2018-07**

Geotechnische Erkundung und Untersuchung –
Prüfung von geotechnischen Bauwerken und Bauwerksteilen –
Teil 4: Pfahlprüfungen: Dynamische Pfahlprobebelastung (ISO 22477-4:2018);
Englische Fassung EN ISO 22477-4:2018,
Englische Übersetzung von DIN EN ISO 22477-4:2018-07

Reconnaissance et essais géotechniques –
Essais de structures géotechniques –
Partie 4: Essais de pieux: essai de chargement dynamique (ISO 22477-4:2018);
Version anglaise EN ISO 22477-4:2018,
Traduction anglaise de DIN EN ISO 22477-4:2018-07

Document comprises 59 pages

Translation by DIN-Sprachendienst.

In case of doubt, the German-language original shall be considered authoritative.

A comma is used as the decimal marker.

National foreword

This document (EN ISO 22477-4:2018) has been prepared by Technical Committee CEN/TC 341 “Geotechnical investigation and testing” in collaboration with Technical Committee ISO/TC 182 “Geotechnics” (Secretariat: BSI, United Kingdom).

The responsible German body involved in its preparation was *DIN-Normenausschuss Bauwesen* (DIN Standards Committee Building and Civil Engineering), Working Committee NA 005-05-07 AA “Ground; piles (national mirror committee for CEN/TC 288 and CEN/TC 341/WG 4 and WG 7)”.

English Version

Geotechnical investigation and testing - Testing of
geotechnical structures - Part 4: Testing of piles: dynamic
load testing (ISO 22477-4:2018)

Reconnaissance et essais géotechniques - Essais de
structures géotechniques - Partie 4: Essais de pieux:
essai de chargement dynamique (ISO 22477-4:2018)

Geotechnische Erkundung und Untersuchung - Prüfung
von geotechnischen Bauwerken und Bauwerksteilen -
Teil 4: Pfahlprüfungen: Dynamische
Pfahlprobebelastung (ISO 22477-4:2018)

This European Standard was approved by CEN on 24 February 2018.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

European foreword

This document (EN ISO 22477-4:2018) has been prepared by Technical Committee ISO/TC 182 "Geotechnics" in collaboration with Technical Committee CEN/TC 341 "Geotechnical Investigation and Testing" the secretariat of which is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by October 2018, and conflicting national standards shall be withdrawn at the latest by October 2018.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

According to the CEN-CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Endorsement notice

The text of ISO 22477-4:2018 has been approved by CEN as EN ISO 22477-4:2018 without any modification.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation on the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT) see the following URL: www.iso.org/iso/foreword.html.

This document was prepared by the European Committee for Standardization (CEN) Technical Committee CEN/TC 341, *Geotechnical investigation and testing*, in collaboration with ISO Technical Committee TC 182, *Geotechnics*, in accordance with the Agreement on technical cooperation between ISO and CEN (Vienna Agreement).

A list of all parts in the ISO 22477 series can be found on the ISO website.
