## National foreword

This document (CEN/TR 14245:2020) has been prepared by Technical Committee CEN/TC 51 "Cement and building limes" (Secretariat: NBN, Belgium).

The responsible German body involved in its preparation was *DIN-Normenausschuss Bauwesen* (DIN Standards Committee Building and Civil Engineering), Working Committee NA 005-07-13 AA "Cement (national mirror committee for CEN/TC 51 and ISO/TC 74)".

Technical Reports are not part of the German body of standards.

Please tell us what you think of this Technical Report:

- preferably in a file with a table, e-mailed to [nabau@din.de](mailto:nabau@din.de). The template for this table is available for download from [www.din.de/stellungnahme](http://www.din.de/stellungnahme);
- or send a hard copy to *DIN-Normenausschuss Bauwesen* (DIN Standards Committee Building and Civil Engineering), Saatwinkler Damm 42/43, 13627 Berlin.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. DIN shall not be held responsible for identifying any or all such patent rights.

For current information on this document, please go to DIN's website ([www.din.de](http://www.din.de)) and search for the document number in question.

## Amendments

This standard differs from DIN CEN/TR 14245:2015-01 as follows:

- a) the guidelines in this document have been aligned with the changes made in EN 197-2;
- b) guidelines relating to AVCP for distributors and importers have been included in the document.
