## Foreword

This document has been prepared by Working Committee NA 005-01-07 AA "Tolerances and fits in building (national mirror committee for sub-sections of ISO/TC 59)" of *DIN-Normenausschuss Bauwesen* (DIN Standards Committee Building and Civil Engineering).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. DIN shall not be held responsible for identifying any or all such patent rights.

## Amendments

This standard differs from DIN 18202:2013-04 as follows:

- a) the concept and application of the box principle has been revised and elaborated on;
- b) the function of joints for a fit adjustment at joints has been included;
- c) the measuring points to be used for compliance control have been expanded or revised;
- d) the standard has been editorially revised.
