

DIN EN 1993-1-4/NA**DIN**

ICS 91.010.30; 91.080.13

Supersedes
DIN EN 1993-1-4/NA:2017-01

**National Annex –
Nationally determined parameters –
Eurocode 3: Design of steel structures – Part 1-4: General rules –
Supplementary rules for stainless steels,
English translation of DIN EN 1993-1-4/NA:2020-11**

Nationaler Anhang –
National festgelegte Parameter –
Eurocode 3: Bemessung und Konstruktion von Stahlbauten – Teil 1-4: Allgemeine Bemessungsregeln – Ergänzende Regeln zur Anwendung von nichtrostenden Stählen, Englische Übersetzung von DIN EN 1993-1-4/NA:2020-11

Annexe Nationale –
Paramètres déterminés au plan national –
Eurocode 3: Calcul des structures en acier – Partie 1-4: Règles générales – Règles supplémentaires pour les aciers inoxydables,
Traduction anglaise de DIN EN 1993-1-4/NA:2020-11

Document comprises 12 pages

Tables

Table NA.1 — Nominal values of the yield strength f_y and the ultimate tensile strength f_u for structural stainless steels to EN 10088	5
Table NA.2 — Nominal values for the yield strength f_y and the ultimate tensile strength f_u for structural stainless steels to EN 10088 in the cold worked condition	6
Table 5.3 — Values of — α and $\bar{\lambda}_0$ for flexural, torsional and torsional-flexural buckling	9

Foreword

This document has been prepared by Working Committee NA 005-08-16 AA "Design of structures (national mirror committee for CEN/TC 250/SC 3, ISO/TC 167/SC 1)" of *DIN-Normenausschuss Bauwesen* (DIN Standards Committee Building and Civil Engineering).

This document is the National Annex to DIN EN 1993-1-4:2015-10, *Eurocode 3: Design of steel structures — Part 1-4: General rules — Supplementary rules for stainless steels*.

European Standard EN 1993-1-4 allows national safety parameters, referred to as Nationally Determined Parameters (NDPs), to be specified for a number of points. The NDPs cover alternative verification methods, the provision of individual values and the selection of classes from designated classification systems. The relevant parts of the text are identified in the European Standard by references to the possibility of national choice and are listed in Subclause NA.2.1. In addition, this National Annex includes non-contradictory complementary information (NCI) for the application of DIN EN 1993-1-4:2015-10.

This National Annex is an integral part of DIN EN 1993-1-4:2015-10.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights, DIN shall not be held responsible for identifying any or all such patent rights.

For current information on this document, please go to DIN's website (www.din.de) and search for the document number in question.

Amendments

This standard differs from DIN EN 1993-1-4/NA:2017-01 as follows:

- a) an NCI has been added to 5.4.2.1(3); Table 5.3 has been replaced.
