**Self-supporting metal sheet for roofing, external cladding and internal lining –
Product specification and requirements
English version of DIN EN 14782:2006-03**

Selbsttragende Dachdeckungs- und Wandbekleidungselemente für die Innen- und Außenanwendung aus Metallblech –
Produktspezifikation und Anforderungen
Englische Fassung DIN EN 14782:2006-03

Document comprises 43 pages

Start of validity

This standard is presumably valid from 01 September 2006.

It should be noted that, in Germany, CE conformity marking of construction products conforming to this standard will be permitted once the standard has been listed in the *Bundesanzeiger* (German Federal Law Gazette).

National foreword

This standard has been prepared by CEN/TC 128 'Roof covering products for discontinuous laying and products for wall cladding' (Secretariat: Belgium).

The responsible German body involved in its preparation was the *Normenausschuss Bauwesen* (Building and Civil Engineering Standards Committee), Technical Committee 005-02-06 AA *Dacheindeckungsprodukte aus Metallblech* (Sp CEN/TC 128/SC 7).

This standard sets out requirements and test methods for factory-made self-supporting metal sheet for roofing and cladding. The standard applies only for products for non-loadbearing applications. 'Permanent loading' of products as in this standard only covers the selfweight of the sheet, using supports at intervals of 1 m or less.

EN 14872 is a product standard, and does not affect the specifications of the DIN 18807 series of standards.

January 2006

ICS 77.140.50; 77.150.01; 91.060.10; 91.060.20

English Version

Self-supporting metal sheet for roofing, external cladding and internal lining - Product specification and requirements

Plaques métalliques autoportantes pour couverture,
bardages extérieur et intérieur et cloisons - Spécification de
produit et exigences

Selbsttragende Dachdeckungs- und
Wandbekleidungselemente für die Innen- und
Außenanwendung aus Metallblech - Produktspezifikation
und Anforderungen

This European Standard was approved by CEN on 28 November 2005.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword	4
1 Scope	5
2 Normative references	6
3 Terms and definitions	7
4 Requirements	7
4.1 Materials	7
4.2 Nominal thickness	7
4.3 Mechanical resistance	7
4.3.1 General	7
4.3.2 Resistance of roofing products to concentrated forces	8
4.4 Water permeability	8
4.5 Vapour and air permeability	8
4.6 Dimensional change	8
4.7 Dimensional tolerances	9
4.8 Durability	9
4.9 External fire performance	9
4.10 Reaction to fire	9
4.11 Release of regulated dangerous substances	9
5 Testing, assessment and sampling methods	9
5.1 External fire performance for roof covering products	9
5.1.1 Products deemed to satisfy the requirements for external fire performance	9
5.1.2 Products classified without the need for further testing (CWFT option)	10
5.1.3 Other products	10
5.2 Reaction to fire	10
5.2.1 Products satisfying the requirements for reaction to fire Class A1 without the need for testing	10
5.2.2 Products classified without the need for further testing (CWFT option)	10
5.2.3 Other products	10
5.3 Release of regulated dangerous substances	10
6 Evaluation of conformity	10
6.1 General	10
6.2 Initial type testing (ITT)	11
6.2.1 General	11
6.2.2 Sampling for ITT	13
6.3 Factory production control (FPC)	13
6.3.1 General	13
6.3.2 General requirements	15
7 Designation	17
8 Product marking	17
Annex A (normative) Multilayer coated steel sheet	18
A.1 General	18
A.2 Substrate material	18
A.3 Specific requirements	18
A.3.1 Minimum nominal values of thickness	18
A.3.2 Bituminous coating specification	18
A.3.3 Durability	19
A.4 Freedom from defects	19
Annex B (normative) Determination of resistance to concentrated forces	20

B.1	Principle.....	20
B.2	Test spans	20
B.3	Test sheets	21
B.4	Test procedure	21
B.5	Number of tests and analysis of results	22
B.6	Acceptance criteria.....	23
B.7	Test report.....	24
Annex C (normative) Mounting and fixing conditions of the test specimen for reaction to fire testing		25
C.1	General	25
C.2	Mounting and fixing conditions	25
C.2.1	General	25
C.2.2	General configuration.....	25
C.2.3	Securing the overlap vertical joint.....	27
C.2.4	Standard assembly – Steel corner flashings	27
C.2.5	Alternative assembly – Corner flashings and seals	27
C.2.6	Test arrangement for reaction to fire test according to EN ISO 11925-2 (Ignitability test).....	27
C.3	Direct and extended application of the fire test results according to EN 13823	28
C.3.1	General	28
C.3.2	Direct application: Systems with only one metal sheet (single skin system without insulation).....	28
C.3.3	Direct application: Systems with two (profiled or flat) coated metal sheets (or one cassette plus one sheet) with an insulation between the two sheets (double skin system)	30
C.3.4	Extended application: Other insulated systems – General methodology	33
Annex ZA (informative) Clauses of this European Standard addressing the provisions of the EU Construction Products Directive		35
ZA.1	Scope and relevant characteristics	35
ZA.2	Procedures for the attestation of conformity of products	36
ZA.3	CE marking and labelling	38
Bibliography.....		41
