## Structural bearings

Part 4: Roller bearings

English version of DIN EN 1337-4

Lager im Bauwesen – Teil 4: Rollenlager

**European Standard EN 1337-4 : 2004 has the status of a DIN Standard.***A comma is used as the decimal marker.***Start of validity**

This standard is valid from 1 July 2005 (start of coexistence period). It should be noted that, in Germany, CE conformity marking of construction products will be permitted once this standard has been listed in the German Federal Law Gazette (1 July 2005 or later)<sup>1)</sup>.

**National foreword**

This standard has been prepared by CEN/TC 167 'Structural bearings' (Secretariat: Italy).

The responsible German body involved in its preparation was the *Normenausschuss Bauwesen* (Building and Civil Engineering Standards Committee), Technical Committee 00.91.00 *Lager im Bauwesen*.

<sup>1)</sup> See relevant EC Official Gazette for end of coexistence period.

Document comprises 30 pages.

This European Standard was approved by CEN on 2004-02-02.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland, and the United Kingdom.
