## ENGINEERING EQUIPMENT AND MATERIALS USERS' ASSOCIATION

The Engineering Equipment and Materials Users' Association, more commonly known as EEMUA, is a European based, non-profit distributing, industry Association run for the benefit of companies that own or operate industrial facilities.

EEMUA aims to improve the safety, environmental and operating performance of industrial facilities in the most cost-effective way.

EEMUA Members pursue these aims by sharing engineering experiences and expertise, and by the promotion of their distinct interests as the *users* of engineering products.

More specifically, the aims of EEMUA Member companies are achieved by:

- providing the organisation within which networking, information sharing and collaboration on non-competitive technical matters can take place;
- influencing the way written regulations are interpreted and applied in practice;
- presenting and promoting Members' views, and encouraging the application of good, sound engineering practices;
- developing and publishing user guides, specifications and training materials;
- facilitating Members' participation in national and international standards making;
- influencing relevant national and European legislation and regulations.

Formed in 1949 as the Engineering Equipment Users Association, and re-named in 1983 (as a result of taking over the materials association, OCMA), EEMUA has for more than fifty years given companies that own and operate process plants, power stations and other significant industrial facilities, a collaborative voice in addressing technical and engineering related issues that impact on good integrity management and asset management practices. The Association is open to companies of all sizes that meet the 'engineering user' criteria. A list of current Members of EEMUA is maintained on the Association's website at [www.eemua.org/about.htm](http://www.eemua.org/about.htm).

EEMUA activities often lead to the production of publications. These are prepared primarily for Members' use, but may be offered for sale as well.

A list of EEMUA publications for sale is given at the end of this Publication. The full list is also on the Association's website at [www.eemua.org/acatalog/shop.html](http://www.eemua.org/acatalog/shop.html), together with on-line shopping facilities.

To enquire about corporate Membership, write to [info@eemua.org](mailto:info@eemua.org) or call +44 (0)20 7621 0011.

## About This Publication

### Legal Aspects

All rights, title and interest in this Publication shall belong to EEMUA. All rights are reserved. No part of this Publication may be reproduced, stored in a retrieval system, or transmitted in any form or by any means: electronic, mechanical, photocopying, recording or other, without the express prior written agreement of the EEMUA Executive Director.

Infringement of copyright is not only illegal, but also reduces the Association's income thereby jeopardising its ability to fund the production of future publications.

It has been assumed in the preparation of this Publication that: the user will ensure selection of those parts of its contents appropriate to the intended application; and that such selection and application will be correctly carried out by appropriately qualified and competent persons for whose guidance this Publication has been prepared. EEMUA does not, and indeed cannot, make any representation or give any warranty or guarantee in connection with material contained in its publications, and expressly disclaims any liability or responsibility for damage or loss resulting from their use. Any recommendations contained herein are based on the most authoritative information available at the time of writing and on current good engineering practice, but it is essential for the user to take account of pertinent subsequent developments and/or legislation.

Any person who encounters an inaccuracy or ambiguity when making use of this Publication is asked to notify EEMUA without delay so that the matter may be investigated and appropriate action taken.

### Consultation and Feedback

EEMUA encourages constructive comments on this Publication from both Members of the Association and others.

Comments should be sent on the standard feedback form, a copy of which is provided towards the end of this Publication. An electronic version of the form is available from EEMUA - e-mail your request for a copy to [info@eemua.org](mailto:info@eemua.org), telephone your request to +44 (0)20 7621 0011, or download the form from the EEMUA website at [www.eemua.org](http://www.eemua.org). Submit comments by e-mail (preferred) or post.

Comments will be considered by the relevant EEMUA Technical Committees and may be incorporated in future editions of this Publication. New editions will be publicised on the EEMUA website.
