In the event of any doubt arising,  
the original Standard in Japanese is to be final authority.

## JAPANESE INDUSTRIAL STANDARD

J I S

## Wood-Wool Cement Boards

A 5404-1987

## 1. Scope

This Japanese Industrial Standard specifies the boards manufactured from wood-wool and cement, hereinafter referred to as the "wood-wool cement boards", by compression-molding.

Remark: The units and numerical values given in { } in this standard are in accordance with the International System of Units (SI), and are appended for reference.

Reference: The wood-fiber cement board covered by Registered Utility Model No. 1247424 (titled "Wood-Fiber Cement Boards"; Announcement dated 1977-10-11) is not included in the scope of this standard.

## 2. Types

The wood-wool cement boards shall be classified into the following two types:

- (1) Flame retardant wood-wool cement boards
- (2) Heat-insulation wood-wool cement boards

Remark: Heat-insulation wood-wool cement boards are sometimes used for sound-absorption.
