Foreword

This translation has been made based on the original Japanese Industrial Standard revised by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee, as the result of proposal for revision of Japanese Industrial Standard submitted by Japan Luminaires Association (JLA)/Japanese Standards Association (JSA) with the draft being attached, based on the provision of Article 12 Clause 1 of the Industrial Standardization Law applicable to the case of revision by the provision of Article 14. Consequently JIS C 8105-2-2: 1999 is replaced with this Standard.

This revision has been made based on IEC 60598-2-2: 1997 Luminaires-Part 2: Particular requirements-Section 2: Recessed luminaires for the purposes of making it easier to compare this Standard with International Standard; to prepare Japanese Industrial Standard conforming with International Standard; and to propose a draft of an International Standard which is based on Japanese Industrial Standard.

Attention is drawn to the possibility that some parts of this Standard may conflict with a patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have technical properties. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying the patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have the said technical properties.

JIS C 8105 consists of the following parts and sections under the general title Luminaires.

Part 1 : General requirements for safety

Part 2 : Particular requirements for safety-Section 1 : Fixed general purpose luminaires

Part 2 : Particular requirements for safety-Section 2 : Recessed luminaires

Part 2 : Particular requirements for safety-Section 3 : Luminaires for road and street lighting

Part 2 : Particular requirements for safety—Section 4 : Portable general purpose luminaires Part 2 : Particular requirements for safety—Section 5 : Floodlights

Part 2: Particular requirements for safety-Section 6: Luminaires with built-in transformers or converters for filament lamps

Part 2 : Particular requirements for safety-Section 7 : Portable luminaires for garden use

Part 2 : Particular requirements for safety-Section 8 : Handlamps

Part 2: Particular requirements for safety-Section 9: Photo and film luminaires (non-professional)

Part 2: Particular requirements for safety Section 17: Luminaires for stage lighting, television, film, and photographic (outdoor and indoor)

Part 2 : Particular requirements for safety-Section 19 : Air-handling luminaires

Part 2 : Particular requirements Section 20 : Lighting chains

Part 2: Particular requirements for safety Section 22: Luminaires for emergency lighting

Part 3 : General requirements for performance

Date of Establishment: 1999-03-20

Date of Revision: 2003-09-20

Date of Public Notice in Official Gazette: 2003-09-22
