ICS 93.080.20

Reference number : JIS A 5032 : 2006 (E)

## Foreword

This translation has been made based on the original Japanese Industrial Standard established by the Minister of Economy, Trade and Industry through deliberations at the Japanese Industrial Standards Committee according to the proposal of establishing a Japanese Industrial Standard from The Japan Society of Industrial Machinery Manufacturers (JSIM), with a draft of Industrial Standard based on the provision of Article 12 Clause 1 of the Industrial Standardization Law.

Attention is drawn to the possibility that some parts of this Standard may conflict with a patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have technical properties. The relevant Minister and the Japanese Industrial Standards Committee are not responsible for identifying the patent right, application for a patent after opening to the public, utility model right or application for registration of utility model after opening to the public which have the said technical properties.

Date of Establishment: 2006-07-20

Date of Public Notice in Official Gazette: 2006-07-20

Investigated by: Japanese Industrial Standards Committee  
Standards Board  
Technical Committee on Civil Engineering

## Contents

	Page
1 Scope .....	1
2 Normative references .....	1
3 Classification and designation .....	2
4 Quality .....	2
4.1 Appearance .....	2
4.2 Leaching amount and content of harmful material .....	2
4.3 Physical properties of single grain size melt-solidified slag and melt-solidified slag fine aggregate .....	3
4.4 Physical properties of size controlled melt-solidified slag and crusher-run melt-solidified slag.....	4
5 Test method .....	4
5.1 Sampling .....	4
5.2 Test for leaching amount and acid extractable content of chemicals....	4
5.3 Grain size test .....	5
5.4 Test for density in saturated surface-dry condition and water absorption .....	5
5.5 Abrasion loss test .....	5
6 Inspection .....	5
6.1 Lot control of melt-solidified slag .....	5
6.2 Procedure .....	5
6.3 Keeping on inspection data .....	5
6.4 Others .....	5
7 Marking .....	6
8 Report .....	6
