

UL 263

STANDARD FOR SAFETY

Fire Tests of Building Construction and Materials

UL Standard for Safety for Fire Tests of Building Construction and Materials, UL 263

Fourteenth Edition, Dated June 21, 2011

Summary of Topics

This revision to ANSI/UL 263, dated August 5, 2021, includes the following changes in requirements:

- ***Replacement of 5.2 to clarify existing requirements for the protection and conditioning of test specimens, including addition of references to ASTM E119 and ASTM E605; and addition of an appendix to provide guidance on locating moisture sensing elements in various types of test specimens with concrete; [5.2.1](#) – [5.2.6](#), [5.2A.1](#) – [5.2A.11](#) and Appendix [D](#).***
- ***Addition of requirement for data to be measured, recorded, and reported at intervals not exceeding 1 min; and revisions to existing intervals to 1 min; [3.2.5](#), [3.3.7](#), [5.6.1](#), [5.6.2](#) and [15.3.5](#).***

Text that has been changed in any manner or impacted by UL's electronic publishing system is marked with a vertical line in the margin.

The new and revised requirements are substantially in accordance with Proposal(s) on this subject dated October 30, 2020 and April 30, 2021.

All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form by any means, electronic, mechanical photocopying, recording, or otherwise without prior permission of UL.

UL provides this Standard "as is" without warranty of any kind, either expressed or implied, including but not limited to, the implied warranties of merchantability or fitness for any purpose.

In no event will UL be liable for any special, incidental, consequential, indirect or similar damages, including loss of profits, lost savings, loss of data, or any other damages arising out of the use of or the inability to use this Standard, even if UL or an authorized UL representative has been advised of the possibility of such damage. In no event shall UL's liability for any damage ever exceed the price paid for this Standard, regardless of the form of the claim.

Users of the electronic versions of UL's Standards for Safety agree to defend, indemnify, and hold UL harmless from and against any loss, expense, liability, damage, claim, or judgment (including reasonable attorney's fees) resulting from any error or deviation introduced while purchaser is storing an electronic Standard on the purchaser's computer system.

Standard for Fire Tests of Building Construction and Materials

First Edition – May, 1929
Second Edition – December, 1934
Third Edition – March, 1939
Fourth Edition – November, 1942
Fifth Edition – November, 1951
Sixth Edition – January, 1955
Seventh Edition – May, 1959
Eighth Edition – January, 1971
Ninth Edition – December, 1976
Tenth Edition – August, 1984
Eleventh Edition – July, 1992
Twelfth Edition – February, 1997
Thirteenth Edition – April, 2003

Fourteenth Edition

June 21, 2011

This ANSI/UL Standard for Safety consists of the Fourteenth Edition including revisions through August 5, 2021.

The most recent designation of ANSI/UL 263 as an American National Standard (ANSI) occurred on August 5, 2021. ANSI approval for a standard does not include the Cover Page, Transmittal Pages, and Title Page.

Comments or proposals for revisions on any part of the Standard may be submitted to UL at any time. Proposals should be submitted via a Proposal Request in UL's On-Line Collaborative Standards Development System (CSDS) at <https://csds.ul.com>.

UL's Standards for Safety are copyrighted by UL. Neither a printed nor electronic copy of a Standard should be altered in any way. All of UL's Standards and all copyrights, ownerships, and rights regarding those Standards shall remain the sole and exclusive property of UL.
